Die Stunde Der Frauen:

From Bundesrepublik to Deutschland Michael G. Huelshoff, Andrei S. Markovits, Simon Reich, 1993 Analyzes Germany's new role in world politics

Yvan Goll - Claire Goll Eric Robertson, Robert Vilain, 2023-04-12 This volume brings together for the first time essays on both Claire and Yvan Goll. The Golls made distinctive contributions to the literary cultures of France and Germany in the first half of the twentieth century. Their writings shed much light upon their respective positions within the exile communities created by the First and Second World Wars and in the inter-war avant-gardes of Paris and Berlin whose cosmopolitanism and eclecticism they came to embody. The Golls' literary output was shaped by and in turn helped to enrich the experimental trends that often challenged or transcended conventional notions according to which genre and choice of literary language are stable phenomena. The essays in this volume focus on texts by Yvan and Claire Goll in French and German and in various literary forms; these are examined in relation to contemporary literary, artistic, and musical developments and place particular emphasis on collaborative and interdisciplinary works. The analyses explore a wide range of theoretical perspectives including intertextuality, Trivialliteratur, psychoanalysis, feminism, cultural marginality, and nostalgia. This collection represents a distinctive and wide-ranging contribution to the study of Yvan and Claire Goll at a time of renewed critical interest in their lives and work.

Women and National Socialism in Postwar German Literature Katherine Stone, 2017 In recent years historians have revealed the many ways in which German women supported National Socialism as teachers, frontline auxiliaries, and nurses as well as in political organizations. In mainstream culture, however, the women of the period are still predominantly depicted as the victims of a violent twentieth century whose atrocities were committed by men. They are frequently imagined as post hoc redeemers of the nation as the rubble women who spiritually and literally rebuilt Germany. This book investigates why the question of women's complicity in the Third Reich has struggled to capture the historical imagination in the same way. It explores how female authors from across the political and generational spectrum—Ingeborg Bachmann, Christa Wolf, Elisabeth Plessen, Gisela Elsner, Tanja Dückers, Jenny Erpenbeck—conceptualize the role of women in the Third Reich. As well as offering innovative readings of celebrated works, this book provides instructive interpretations of lesser-known texts that nonetheless enrich our understanding of German memory culture. Katherine Stone is Assistant Professor in German Studies at the University of Warwick.
