Butcher,2020 *Northern Diesels* Martyn Hilbert,2025-08-15 A pictorial survey of Diesel Multiple Units in the North of England from the late 1970s to the present day *The B T H and North British Type 1 Bo-Bo Diesel-Electric Locomotives - British Railways Classes 15 and 16* Anthony P. Sayer,2021-12-30 The British Railways Pilot Scheme orders of 1955 included ten BTH and ten NBL Type 1 locomotives these being introduced during 1957 61 for use in East London and on the Great Eastern and London Tilbury Southend lines The BTH fleet subsequently expanded to forty four as a consequence of their light axle loading and the availability of spare manufacturing capacity which BR chose to exploit in their quest to eliminate steam traction Further construction of these two classes ceased after the fifty four units with preference being given to the highly reliable English Electric product which by mid 1962 had proliferated to 128 examples The NBL fleet survived until 1968 being withdrawn after ten years of indifferent performance The BTH locomotives followed by 1971 although four lingered on as carriage pre heating units Dramatic reductions in goods traffic during the 1960s 70s particularly impacted local trip and transfer freight duties the bread and butter work for the Type 1s and it was inevitable that the less successful classes were retired from traffic first This book looks at the short history of these two classes making extensive use of archive sources combined with the primary observations of numerous enthusiasts Previously unpublished information covering the introduction appearance design and performance issues of the locomotives form a central focus and allocations works histories storage and disposals liveries and detail differences are covered in the same level of detail as previous volumes in the Locomotive Portfolio series Diesel and Electric list 2013 Robert Sturgess,2013-04-02 This book will detail all Diesel and Electric locos to run on the rail network It lists every number carried by each loco and all the names carried from shunters to the brand new class 70 locos This will help people to log what they have seen or for haulage over the years This will also list which locos have been cut up with the date it was cut preserved and exported **Green Diesel Days** Derek Huntriss,2019-08-15 A look in colour at the diesel locomotives that were brought in to take over from steam as part of the 1955 Railway Modernisation Plan Sixties Spotting Days Around the Eastern Region Kevin Derrick,2016-07-15 Kevin Derrick explores the spotting days of the 1960s in the Eastern Region *The Last Days of Steam on the Eastern Region* E. H. Sawford,1999 In this volume Eric Sawford uses a selection of photographs to tell the story of the last days of steam power on the Eastern Region His pictures show that while steam locomotives were not withdrawn from the Eastern Region until the mid 1960s the 1950s was their swan song The author's photographs document the range of motive power that could be seen on the track in that era Locomotives are depicted in action and at rest on the

express routes shunting or being repaired Also recorded are neglected locomotives during their declining years when they were used on secondary duties or were laid up before being scrapped
