## **Dietary Risk Assessment In The Wic Program:**

*Dietary Risk Assessment in the WIC Program* Institute of Medicine, Food and Nutrition Board, Committee on Dietary Risk Assessment in the WIC Program, 2002-05-10 Dietary Risk Assessment in the WIC Program reviews methods used to determine dietary risk based on failure to meet Dietary Guidelines for applicants to the Special Supplemental Nutrition Program for Women Infants and Children WIC Applicants to the WIC program must be at nutritional risk to be eligible for program benefits Although dietary risk is only one of five nutrition risk categories it is the category most commonly reported among WIC applicants This book documents that nearly all low income women in the childbearing years and children 2 years and over are at risk because their diets fail to meet the recommended numbers of servings of the food guide pyramid The committee recommends that all women and children ages 2 4 years who meet the eligibility requirements based on income categorical and residency status also be presumed to meet the requirement of nutrition risk By presuming that all who meet the categorical and income eligibility requirements are at dietary risk WIC retains its potential for preventing and correcting nutrition related problems while avoiding serious misclassification errors that could lead to denial of services for eligible individuals
