Dilemmas Of Social Reform:

Dilemmas of Social Reform Peter Marris, 2018-02-06 This title is a classic work on social reform It is an account of the origins and development of community action from its beginnings in the Ford Foundation Gray Area Programs and the President's Committee on Juvenile Delinquency through the rise and decline of the War on Poverty and the Model Cities program In the ruthlessly impartial examination of various poverty programs two social scientists one British one American explain why programs of such size and complexity have only a minimal chance of success They describe the realities of reform and point up how the conservatism of bureaucracy the rivalries among political and administrative jurisdictions and the apathy of the poor have often hindered national and local efforts On the other hand they show how these obstacles can be overcome by an imaginative combination of leadership democratic participation and scientific analysis This second edition also contains a new chapter that was not included in the first edition This new chapter tries to set the study in a broader context first by interpreting the political motives and constraints that led to the adoption of community action as a principal strategy of a nationwide war on poverty and second by discussing the underlying weaknesses of democracy that community action implied and sought to tackle Distinguished by an analysis of the major critics of community action the book provides a balanced perspective of the movement against its many foes It is important reading for anyone engaged in planning or community action whether as organizer consultant official or politician

,2001 The authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed The reason for this they agree lies in the failure of our major cities to develop their civic capacity The ability to build and maintain a broad social and political coalition across all sectors of the urban community in pursuit of a common goal **The Dilemma of Prison Reform**

Thomas O. Murton,1982 **Native Activism in Cold War America** Daniel M. Copeland,1994 This overview of the poverty problem begins by summarizing our current situation with emphasis on its spiritual dimensions It then places these issues within the American historical context The core of the book is the presentation of alternative ways of looking at the problem and of trying to deal with it with particular emphasis on the ethical principles that shape each alternative *Social Reform and the Use of the Law as an Instrument of Social Change* Mary B. Olson,1984 *The State and Community Action* Terry Robson,2000 In this controversial book Terry Robson shatters the myth that the current community development movement has the potential to change the nature of society Robson criticises community development organisations for losing touch with the very communities they are seeking to serve Against a background of continuing civil and political conflict Robson examines case studies in Ireland Britain Romania and the United States *The Urban & Social Change Review* ,1983
