## **Dime Algo Sobre Cuba:**

Dime algo sobre Cuba Jesús Díaz, 1998      **Culture and the Cuban State** Yvon Grenier, 2017-11-08 Culture and the Cuban State examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jesús Díaz Rafael Hernández Kcho Reynier Leyva Novo Leonardo Padura and Jos Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere      **Cuba** Ted A. Henken, Miriam Celaya, Dimas Castellanos, 2013-10-29 Written by some of the best known independent scholars citizen journalists cyber activists and bloggers living in Cuba today this book presents a critical complete and unbiased overview of contemporary Cuba In this era of ever increasing globalization and communication across national borders Cuba remains an isolated island oddly out of step with the rest of the world And yet Cuba is beginning to evolve via the important if still insufficient changes instituted by Raul Castro who became president in 2008 This book supplies a uniquely independent accurate and critical perspective in order to evaluate these changes in the context of the island's rich and complex history and culture Organized into seven topical chapters that address geography history politics and government economics society culture and contemporary issues readers will gain a broad insightful understanding of one of the most unusual fascinating and often misunderstood nations in the Western Hemisphere      Caribbean Interfaces Lieven d' Hulst, 2007 Contemporary research on Caribbean literature displays a rich variety of themes literary and cultural categories forms genres languages Still the concept of a unified Caribbean literary space remains questionable depending upon whether one strictly limits it to the islands enlarges it to adopt a Latin American perspective or even grants it inter American dimensions This book is an ambitious tentative to bring together specialists from various disciplines neither just French Spanish English or Comparative studies specialists nor strictly Caribbean literature specialists but also theoreticians cultural studies scholars historians of cultural translation and of intercultural transfers The contributions tackle two major questions what is the best possible division of labor between comparative literature cultural anthropology and models of national or regional literary histories how should one make use of

transversal concepts such as memory space linguistic awareness intercultural translation orature or hybridization Case studies and concrete projects for integrated research alternate with theoretical and historiographical contributions This volume is of utmost interest to students of Caribbean studies in general but also to anyone interested in Caribbean literatures in Spanish English and French as well as to students in comparative literature cultural studies and transfer research

Writing-between-Worlds Ottmar Ette,2016-02-22 This book proposes that there is no better no more complex way to access a community a society an era and its cultures than through literature For millennia literature from a wide variety of geocultural areas has gathered knowledge about life about survival and about living together without either falling into discursive or disciplinary specializations or functioning as a regulatory mechanism for cultural knowledge Literature is able to offer its readers knowledge through direct participation in the form of step by step intellectual and affective experiences Through this ability it can reach and affect audiences across great spatial and temporal distances Literature what different times and cultures have been able to understand as such in a broad sense has always been characterized by its transareal and transcultural origins and effects It is the product of many logics and it teaches us to think polylogically rather than monologically Literature is an experiment in living and living in a state of experimentation About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam Germany since 1995 He is Honorary Member of the Modern Language Association of America MLA elected in 2014 member of the Berlin Brandenburg Academy of Sciences and Humanities elected in 2013 and regular member of the Academia Europaea since 2010
