Die Wiederentdeckung Der Neuen Welt:

Christianity in Latin America Hans-Jürgen Prien, 2012-11-21 Christianity in Latin America provides a complete overview of over 500 years of the history of Christianity in the New World The inclusion of German research in this book is an important asset to the Anglo American research area in disclosing information that was hitherto not available in English This work will present the reader with a very good survey into the history of Christianity on the South American continent based on a tremendous breadth of literature

Nationalsozialistische Monatshefte, 1939-07 *The Strait Gate* Daniel Jütte, 2015-09-22 Exploring a chapter in the cultural history of the West not yet probed The Strait Gate demonstrates how doors gates and related technologies such as the key and the lock have shaped the way we perceive and navigate the domestic and urban spaces that surround us in our everyday lives Jütte reveals how doors have served as sites of power exclusion and inclusion as well as metaphors for salvation in the course of Western history More than any other parts of the house doors are objects onto which we project our ideas of and anxieties about security privacy and shelter Drawing on a wide range of archival literary and visual sources as well as on research literature across various disciplines and languages this book pays particular attention to the history of the practices that have developed over the centuries in order to handle and control doors in everyday life
