## **Difference And Subjectivity Dialogue And Personal Identity:**

Difference and Subjectivity Francis Jacques,1991      Subjectivity and Transcendence Arne Grøn,Iben Damgaard,Søren Overgaard,2007 The book has its origins in a conference entitled Subjectivity and Transcendence which was held at the Danish National Research Foundation Center for Subjectivity Research University of Copenhagen Denmark in November 2003 However the book is not a conference proceedings volume Pref      **Mediated Identity in the Emerging Digital Age** Hubert J.M. Hermans,2022-03-24 This book illustrates the process of mediated dialogue in a digital age It shows that culture and self like society and identity are conceived as mutually inclusive and shows how technology is able to create a new form of dialogue that is very personal and very public at the same time The first article shows that culture and self like society and identity are conceived as mutually inclusive Then looks at how technology is able to create a new form of dialogue that is very personal and very public at the same time The third paper looks at education Next SMS a medium of communication is covered The last two papers focus on television which is seen as a social space that offers a variety of possible self images through audience discussion programs its participants and the disclosure of private stories and historical changes in the notion of space      *Empire of Meaning* François Dosse,1999 An outgrowth of Dosse s History of Structuralism Empire of Meaning is an extended encounter with some of the most influential French intellectuals Through interviews and readings Dosse reveals what has become of the intellectuals of the generation of 68 as they have tried to work out the implications of their revolt against structuralism and the problem of cold war existence Paul Ricoeur Bruno Latour Isabelle Stengers Roger Chartier Marcel Gauchet Dany Robert Dufour and Michel Serres are among the many figures whose words and work unfold in these pages      **Theory of Subjectivity from a Cultural-Historical Standpoint** Daniel Magalhães Goulart,Albertina Mitjás Martínez,Megan Adams,2021-06-14 This book examines key ideas related to the Theory of Subjectivity within a cultural historical approach It brings together the intellectual contributions made by Professor Fernando Gonz lez Rey 1949 2019 towards understanding human subjectivity and emphasizing their unfolding in different fields and contexts The book addresses the genesis and development of Gonz lez Rey s work articulating this discussion with the author s biography Gonz lez Rey s main scientific contribution is the Theory of Subjectivity in a cultural historical perspective which is inseparable from Qualitative Epistemology and from its constructive interpretive methodological expression The book presents and discusses Gonz lez Rey s contributions to different contexts and fields such as psychological research education cultural historical psychology human development motivation human health and psychotherapy This book brings together examples of how these ideas have been employed and developed in different fields and contexts      **Shakespeare Quarterly** ,2001

**Transcendence** Samuel Aaron Moyn,2000 **International Philosophical Quarterly** ,1961 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,1991 List of members in v 1 The Orthodox Churches in a Pluralistic World Emmanuel Clapsis,2004 Churches seek to supply their people with pastoral support and theological insight even when the community s self understanding is evolving in the midst of a pluralistic environment This anthology explores various ways in which churches of the Orthodox tradition are meeting the challenges of a post modern world The authors presentations identify contemporary opportunities for Christian witness promoting ministries of healing and renewal within a diverse society Interesting topics such as cultural identity and ethnic conflict globalization and human rights violence forgiveness and reconciliation world mission and spirituality are discussed **Philosophy of Systems** Edward Tesler,2000 An interdisciplinary study of entropy negating phenomena this book established the philosophic category of systems broadly defined as nonrandom information explores the mechanism of selective preservation MOSP as the only natural way for a system to emerge and exist and traces the sequence of systems development or the ladder of ascending complexity from the simplest protosystems such as clouds of cosmic dust to the most complex social metasystems The scientific methods of automodeling and deductive analysis are consistently applied to each rung of said ladder thus bridging the gap between exact sciences and the humanities and contributing to better understanding the latter Back cover *The Ethical Subject of Security* J. Peter Burgess,2011-02-15 While critical security studies largely concentrates on objects of security this book focuses on the subject position from which securitization and other security practices take place First it argues that the modern subject itself emerges and is sustained as a function of security and insecurity It suggests consequently that no analytic frame can produce or reproduce the subject in some original or primordial form that does not already reproduce a fundamental or structural insecurity It critically returns through a variety of studies to traditionally held conceptions of security and insecurity as simple predicates or properties that can be associated or not to some more essential more primeval more true or real subject It thus opens and explores the question of the security of the subject itself locating through a reconstruction of the foundations of the concept of security in the modern conception of the subject an irreducible insecurity Second it argues that practices of security can only be carried out as a certain kind of negotiation about values The analyses in this book find security expressed again and again as a function of value cast in terms of an explicit or implicit philosophy of life of culture of individual and collective anxieties and aspirations of expectations about what may be sacrificed and what is worth preserving By way of a critical examination of the value function of security this book discovers the foundation of values as dependent on a certain management of their own vulnerability continuously under threat and thus fundamentally and necessarily insecure This book will be an indispensable resource for students of Critical Security Studies Political Theory Philosophy Ethics and International Relations in general **Shifting Protracted Conflict Systems Through Local Interactions** Tamra Pearson d'Estrée,2023-12-29 This volume

explores the evolution of theoretical and practical approaches to intervening in protracted conflicts following the work of Herb Kelman Interactive problem solving as developed by Kelman and others sought to increase understanding about the microprocesses of international relations Kelman early on emphasised the centrality of an interactive approach for constructing new identities new narratives and new ways forward Transforming conflict systems requires strategic attention to the interactions between agents of change that provide stability or induce shift This volume on interactive conflict approaches includes both critical reflections and new ideas from scholar practitioners who have developed revised and expanded these approaches Contributors take up important issues from the shape and likelihood of solutions in intractable conflicts to how individuals can exist in realities with seemingly irresolvable inner and outer conflicts The volume represents the best of current thinking about how the mechanisms theoretical framework and application of interactive problem solving should be moved into the twenty first century context of increasing complexity increasing uncertainty and increasing polarisation This book will be of interest to students of peace studies conflict resolution and international relations
