Diffusing Geography Essays For Peter Haggett:

Diffusing Geography A. D. Cliff, Peter R. Gould, Anthony G. Hoare, Nigel Thrift, 1991-01-16 A volume celebrating the work of the twentieth century's leading geographer should in itself be an event of importance for the discipline. This book lives up to that ambition for in its quality, breadth, and originality it reflects the attributes of the man it honours. The contributors include Richard Chorley, Peter Gould, Torsten Hagerstrand, David Harvey, and R. J. Johnston. **Key Thinkers on Space and Place** Phil Hubbard, Rob Kitchin, 2010-11-30 In this latest edition of *Key Thinkers on Space and Place* editors Phil Hubbard and Rob Kitchin provide us with a fully revised and updated text that highlights the work of over 65 key thinkers on space and place. Unique in its concept, the book is a comprehensive guide to the life and work of some of the key thinkers particularly influential in the current spatial turn in the social sciences. Providing a synoptic overview of different ideas about the role of space and place in contemporary social, cultural, political, and economic life, each portrait comprises biographical information and theoretical context. An explication of their contribution to spatial thinking. An overview of key advances and controversies. Guidance on further reading. With 14 additional chapters including entries on Saskia Sassen, Tim Ingold, Cindi Katz, and John Urry, the book covers ideas ranging from humanism, Marxism, feminism, and post-structuralism to queer theory, post-colonialism, globalization, and deconstruction, presenting a thorough look at diverse ways in which space and place has been theorized. An essential text for geographers, this now classic reference text is for all those interested in theories of space and place, whether in geography, sociology, cultural studies, urban studies, planning, anthropology, or women's studies.

Poststructuralist Geographies Marcus Doel, 1999-08-30 This work is the first attempt to integrate poststructuralist thought with the insights of critical human geography. Doel does not seek to make conventional approximations of poststructuralist concepts but to rethink and rewrite the world through them. David Harvey Noel Castree, Derek Gregory, 2008-04-15 This book critically interrogates the work of David Harvey, one of the world's most influential geographers and one of its best-known Marxists. Considers the entire range of Harvey's oeuvre from the nature of urbanism to environmental issues. Written by contributors from across the human sciences operating with a range of critical theories. Focuses on key themes in Harvey's work. Contains a consolidated bibliography of Harvey's writings. **Becoming a Geographer** Peter Gould, 1999-03 A collection of essays that reflect Gould's eclectic research and provocative thinking. The wide range of topics include the discussion of AIDS, mental maps, development themes in Africa, postmodernism, and the practices of teaching and writing. *Spatial Formations* Nigel Thrift, 1996-06-13 This text in the expanding area of social theory and space provides an analysis of how space is socially constructed, unmade, and reconstructed. It shows how social theory can be used to make sense of spatial forms and practices and how spatial relations are made durable over space and time. Maritime Governance Michael Roe, 2015-08-25 This book provides an original analysis of the problems facing global governance and in particular that of one of the most globalised of all industries, shipping. Central to all global trade and its

dramatic growth shipping faces difficulties of governance stemming from its every globalised nature The current characteristics of global governance nation state fixation anachronistic institutions inadequate stakeholder involvement and an over domination of owner interests are dwarfed by the problems of stasis and fixation which means that policies to address problems of safety the environment and security are inadequate This book provides a full and wide ranging discussion of how governance can be animated in a global context so that the dynamism of the maritime industry and its problems can be prevented regulated and understood Its unique approach to governance makes it essential reading for all maritime policy makers and those analysing maritime issues alongside those with an interest in governance in its widest sense
