essays exploring gardening and its place in the natural world Written by an award winning British gardening and environmental author John Walker digs deep into gardening's subsoil to challenge assumptions raise awareness and encourage us to ponder how our gardening activities affect our shared living world Digging and Delighted Carol J. Michel, 2021-07-19 Finally A gardening book with answers to all the questions asked by anyone who has ever felt lost in a garden center or wondered how to become a gardener I wrote this book as a guide to help you think like a gardener I want you to feel confident as you step out into your garden whether that garden is just one houseplant in a four inch clay pot or a huge garden covering several acres out in the country Using a combination of humor and good advice I dig deep into the roots of the love of gardening and share the best of those roots with you If you are ready to live your best gardening life this book is for you **Becoming a Gardener** Catie Marron, 2022-05-03 A beautifully designed full color personal account of what it means to become a gardener filled with specially commissioned color photography watercolors and fine art To make her new house in Connecticut truly feel like home Catie Marron decided to create a garden But while she was familiar with landscape design she had never grown anything A dedicated reader with a lifelong passion for literature Marron turned to the library of gardening books she'd collected to glean advice from a variety of writers on gardening and horticultural topics both grand and small Marron's quest to become a gardener however was about more than learning the basics about mulch or which plants work best in the shade She sought something far more elusive to identify the core qualities and characteristics that make a person a gardener and an understanding of what a garden could mean to her as it had to multitudes of other gardeners over the centuries In *Becoming a Gardener* Catie Marron chronicles her transformation into a gardener over the course of eighteen months seeding the details of her experience with rich advice from writers as diverse as Eleanor Perényi and Karel Capek Penelope Lively and Jamaica Kincaid As she digs deeper into her readings and works in the garden itself Marron not only discovers the essence of gardening but in the words of Michael Pollan the endlessly engrossing ways that cultivating a garden attaches a body to the earth A delightful blend of informed opinion personal reflection and practical advice *Becoming a Gardener* explores topics as varied as the composition of dirt the agricultural wisdom of avid kitchen gardeners George Washington and Thomas Jefferson the healing power of digging in the soil and the beauty of finding solitude in nature Throughout Marron carefully plants special illustrated features such as musings on the merits and detriments of the rose essential tools moonlight gardening children's books which feature gardens and her favorite gardens around the world Also included is an annotated list of recommended writers books and films related to gardens and gardening and a monthly to do calendar Featuring specially commissioned illustrations by the Danish team All the Way to Paris and stunning photographs by acclaimed photographer William Abranowicz that capture the pastoral beauty of Marron's Connecticut garden *Becoming a Gardener* is a very special and moving portrait of life and the enduring power of literature and nature that is sure to become an instant classic
