Cline, 2022-05-17 A vivid portrait of the early years of biblical archaeology from the acclaimed author of 1177 B C The Year Civilization Collapsed In 1925 famed Egyptologist James Henry Breasted sent a team of archaeologists to the Holy Land to excavate the ancient site of Megiddo Armageddon in the New Testament which the Bible says was fortified by King Solomon Their excavations made headlines around the world and shed light on one of the most legendary cities of biblical times yet little has been written about what happened behind the scenes Digging Up Armageddon brings to life one of the most important archaeological expeditions ever undertaken describing the stunning discoveries that were made there and providing an up close look at the internal workings of a dig in the early years of biblical archaeology **The Underwater Dig** Robert F. Marx, 1990 **Tuckaleechee Cove** Boyce N. Driskell, Robert J. Norrell, 2024-01-12 Nestled amid the western slopes of the Great Smoky Mountains in East Tennessee bisected by the Little River and including the community of Townsend Tuckaleechee Cove is known today as the peaceful side of the Smokies Celebrated for its natural beauty the area is also the site of human habitation dating back at least 13 000 years Tuckaleechee Cove s rich past emerged from years of archaeological and historical research that began in 1999 when a state highway project uncovered a wealth of Native American and Euro American remains including burial mounds fragments of tools weapons cooking vessels and other evidence of past activity This bountifully illustrated book combines details from that study with fascinating bits of history to tell the story of the cove and its disparate peoples The earliest Native Americans to visit the area were hunters and foragers who moved in small bands through the cove setting up temporary camps Over the millennia foraging gave way to more settled farming practices with the establishment of permanent settlements about 2 000 years ago By the 1600s the area s residents were Cherokees who would soon encounter European explorers and traders Displacing the Cherokees Euro Americans formed a number of small communities in the cove with colorful names like Frog Town and Needmore They farmed the land built churches schools and small businesses and fought in the Civil War In 1900 a northern investor named W B Townsend recognized the area s potential as a source of timber and two years later the town bearing his name was literally abuzz with sawmill activity By the Great Depression however the mills had closed bringing hardship to cove residents A measure of relief came in 1934 when the Great Smoky Mountains National Park was established nearby opening a new still unfolding chapter in the area s history Boyce N Driskell is the past director of the Archaeological Research Laboratory and adjunct research professor in the Department of Anthropology at the University of Tennessee Knoxville Robert J Norrell is a professor and the Bernadotte Schmidt Chair of Excellence in the Department of History at the University of Tennessee Knoxville **Japanese Porcelain, 1800-1950** Nancy Schiffer, 1986 Popular Japanese porcelain of the 19th and 20th centuries including Kakiemon Nabeshima Arita Hirado Fukagawa Imari Kutani Satsuma and individual craftsmen s works The European influenced styles of the 20th century such as Nippon Noritake and Occupied Japan are also presented
