Digital Guerrilla Video Avi Hoffer,1999 Digital Guerrilla Video is the creative manifesto for today's independent digital video producer or diguerrillas It teaches the tactics for designing and producing creative digital images based on the guerrilla ethic Use less money less time fewer Here is the creative manifesto for today's independent digital video producer Learn the tactics for designing and producing creative digital images based on the guerrilla ethic use less money less time fewer tools and new rules The companion CD ROM contains creative software stock footage and sample projects The Ultimate Writer's Guide to Hollywood Skip Press,2004 **Guerilla Guide to Performance Art** Leslie Hill,Helen Paris,2004-05-27 The Guerilla Performance and Multimedia Handbook is the ultimate guide for artists at all stages of their careers engaged in creating original performance and multimedia work including hybrids of theatre visual art installation physical theatre dance CD Rom and web design It covers all aspects of artist support including starting up a company funding multimedia tools and documentation and marketing and incorporates a useful Yellow Pages section with contact information for production funding venues galleries publications festivals printers equipment hire technical support artists organizations performance archives copyright offices and software support The book is lavishly illustrated and interviews from major artists and directors of some of the leading artist support groups in the UK and US along with illuminating case studies address practical questions and offer indispensable insights into how to succeed in the performance arts

Streaming and Copyright Law Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing

nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions The Power of Global Community Media Linda K.
