*Civil War Writing* Stephen Cushman,Gary W. Gallagher,2019-03-06 Civil War Writing is a collection of new essays that focus on the most significant writing about the American Civil War by participants who lived through it whether as civilians or combatants southerners or northerners women or men blacks or whites Collectively as contributors show these writings have sustained their influence over generations and include histories memoirs journals novels and one literary falsehood posing as an autobiographical narrative Several of the works such as William Tecumseh Sherman s memoirs or Mary Chesnut s diary are familiar to scholars but other accounts including Charlotte Forten s diary and Loreta Velasquez s memoir offer new material to even the most omnivorous Civil War reader In all cases a deeper look at these writings reveals why they continue to resonate with audiences more than 150 years after the end of the conflict As supporting evidence for historical and biographical narratives and as deliberately designed communications the writings discussed in this collection demonstrate considerable value Whether exploring the differences among drafts and editions listening closely to fluctuations in tone or voice or tracing responses in private correspondence or published reviews the essayists examine how authors wrote to different audiences and out of different motives creating a complex literary record that offers rich potential for continuing evaluation of the country s greatest national trauma Overall the essays in Civil War Writing underscore how participants employed various literary forms to record describe and explain aspects and episodes of a conflict that assumed proportions none of them imagined possible at the outset
