13 Men Who Changed The World:

13 Men who Changed the World H. S. Vigeveno, **Thirteen Men Who Changed the World** Henk S.

Vigeveno,1986-04 **Wars That Changed History** Spencer C. Tucker,2015-09-22 A thorough study of significant wars throughout history and their influence on world affairs from the Egyptian Pharaoh Thutmose III's Campaigns during 479-459 BCE through the Iraq War of 2003-2011. For hundreds of years wars have played a determining role in history and have decided the rise and fall of civilizations. Many believe that understanding the causes and consequences of warfare may move humankind towards world peace. This selection of the 50 most consequential wars compiled by award-winning military historian Spencer C. Tucker presents each conflict in chronological order and discusses its causes, its course, and its significance in world history. Through thoughtful essays and supporting visual evidence, this reference work examines the types of weapons systems employed and their effects in the field, the roles played by individual leaders such as Alexander the Great, Julius Caesar, Abraham Lincoln, and Adolf Hitler, and the impact of geography and economics on the battlefield. The work includes fascinating information about warfare, addressing subjects such as how transportation and logistics changed the face of war over time, what invention marked the ascendancy of infantry over cavalry, why World War I remains the most important war in the 20th century, and which war killed nearly half of the population of Germany. Each essay includes the latest interpretations of strategy, agendas, and consequences of the featured event.

The Changing World of Contemporary South Asian Poetry in English Mitali P. Wong, M. Yousuf Saeed,2019-07-02 This collection uses a transnational approach to study contemporary English language poetry composed by poets of South Asian origin. The poetry contains themes, motifs, and critiques of social changes, and the contributors seek to encapsulate the continually changing environments that these contemporary poets write about. The contributors show that English language poetry in South Asia is hybridized with imagery and figurative language adapted from the vernacular languages of South Asia. The chapters examine women's issues, concerns of marginalized groups such as the Dalit community, and the people of Northeastern India, social changes in Sri Lanka, the changing society of Pakistan, and the formation of the identity in the several nation states that resulted from the British colony of India.

Battles that Changed History Spencer C. Tucker,2010-11-11 This encyclopedic collection of more than 200 of the most decisive and important battles throughout world history gets a fresh interpretation by a noted military historian. The mythic and doomed stand of the 300 Spartans at Thermopylae, the siege of Carthage in 149-146 BCE which ended with Rome destroying the city and enslaving the entire remaining Carthaginian population, the Battle of Hastings in 1066, arguably the most important battle ever on English soil, the Battle of Trenton that saved the American Revolutionary cause and established the military reputation of General Washington, the firebombing of Tokyo on the night of March 9-10, 1945 that destroyed one quarter of the city. All of these conflicts and hundreds more played a crucial role in defining the direction of history and the evolution of human society. This text provides high school level readers with detailed

descriptions of the battlefield actions that have played the greatest parts in shaping military history and human existence
Special attention is paid to the greater historical context and significance of each battle especially in relation to other events
