18th Century Western Cree And Their Neighbours:

Eighteenth-Century Western Cree and Their Neighbours Dale R. Russell, 1991-01-01 A re examination of the hypothesis of a historic migration of the Western Cree resulting from the introduction of the fur trade Published in English **The 18th Century Western Cree and Their Neighbours** ,2009 **Eighteenth Century Western Cree and Their Neighbours** Dale R. Russell, Canadian Museum of Civilization, Archaeological Survey of Canada, 1991 The author discusses the history of the Cree and Assiniboin in the early 1700s by examining eighteenth century historical documents which fail to support the accepted view that the Cree and Assiniboin invaded the west after 1690 as a result of the introduction of the fur trade

Clearing the Plains James William Daschuk, 2013 In arresting but harrowing prose James Daschuk examines the roles that Old World diseases climate and most disturbingly Canadian politics the politics of ethnocide played in the deaths and subjugation of thousands of aboriginal people in the realization of Sir John A Macdonald's National Dream It was a dream that came at great expense the present disparity in health and economic well being between First Nations and non Native populations and the lingering racism and misunderstanding that permeates the national consciousness to this day Clearing the Plains is a tour de force that dismantles and destroys the view that Canada has a special claim to humanity in its treatment of indigenous peoples Daschuk shows how infectious disease and state supported starvation combined to create a creeping relentless catastrophe that persists to the present day The prose is gripping the analysis is incisive and the narrative is so chilling that it leaves its reader stunned and disturbed For days after reading it I was unable to shake a profound sense of sorrow This is fearless evidence driven history at its finest Elizabeth A Fenn author of Pox Americana Required reading for all Canadians Candace Savage author of A Geography of Blood Clearly written deeply researched and properly contextualized history Essential reading for everyone interested in the history of indigenous North America J R McNeill author of Mosquito Empires **Gifts from the Thunder Beings** Roland Bohr, 2014-05-01 Gifts from the Thunder Beings examines North American Aboriginal peoples use of Indigenous and European distance weapons in big game hunting and combat Beyond the capabilities of European weapons Aboriginal peoples ways of adapting and using this technology in combination with Indigenous weaponry contributed greatly to the impact these weapons had on Aboriginal cultures This gradual transition took place from the beginning of the fur trade in the Hudson's Bay Company trading territory to the treaty and reserve period that began in Canada in the 1870s Technological change and the effects of European contact were not uniform throughout North America as Roland Bohr illustrates by comparing the northern Great Plains and the Central Subarctic two adjacent but environmentally different regions of North America and their respective Indigenous cultures Beginning with a brief survey of the subarctic and Northern Plains environments and the most common subsistence strategies in these regions around the time of contact Bohr provides the context for a detailed examination of social spiritual and cultural aspects of bows arrows quivers and firearms His detailed analysis of the shifting usage of bows and arrows and

firearms in the northern Great Plains and the Central Subarctic makes *Gifts from the Thunder Beings* an important addition to the canon of North American ethnology *Negotiating the Numbered Treaties* Robert Talbot, 2019-01-31 Alexander Morris Lieutenant Governor of Manitoba and the North West Territories in the 1870s was the main negotiator of many of the numbered treaties on the prairies and has often been portrayed as a parsimonious agent of the government bent on taking advantage of First Nations chiefs and councillors However author Robert J Talbot reveals Morris as a man deeply sympathetic to the challenges faced by Canada's Indigenous peoples as they sought to secure their future in the face of encroaching settlement and the disappearance of the buffalo Both Morris and the First Nations negotiators viewed the treaties as the basis of a new reciprocal arrangement but by the end of his appointment Morris was seriously at odds with a federal administration that preferred inaction over honouring its treaty promises **Finding a Way to the Heart** Robin Brownlie, Valerie J. Korinek, 2012 When Sylvia Van Kirk published her groundbreaking book *Many Tender Ties* in 1980 she revolutionized the historical understanding of the North American fur trade and introduced entirely new areas of inquiry in women's social and Aboriginal history Using Van Kirk's themes and methodologies as a jumping off point *Finding a Way to the Heart* examines race gender identity and colonization from the early nineteenth to the late twentieth century and illustrates Van Kirk's extensive influence on a generation of feminist scholarship Publisher's website **Algonquian and Iroquoian Linguistics**, 1990 [The American Historical Association's Guide to Historical Literature](#) American Historical Association, 1995 Contains nearly 2 000 annotated citations primarily English language works divided into forty eight sections citations refer chiefly to works published between 1961 and 1992 **Handbook of North American Indians** William C.
