C. H. King, 2012-03-01 By exploring the processes of collecting which challenge the bounds of normally acceptable practice this book debates the practice of collecting difficult objects from a historical and contemporary perspective and discusses the acquisition of objects related to war and genocide and those purchased from the internet as well as considering human remains mass produced objects and illicitly traded antiquities The aim is to apply a critical approach to the rigidity of museums in maintaining essentially nineteenth century ideas of collecting and to move towards identifying priorities for collection policies in museums which are inclusive of acquiring difficult objects Much of the book engages with the question of the limits to the practice of collecting as a means to think through the implementation of new strategies

Weight of Their Votes Lorraine Gates Schuyler examines the consequences this had in states across the South She shows that from polling places to the halls of state legislatures women altered the political landscape in ways both symbolic and substantive Schuyler challenges popular scholarly opinion that women failed to wield their ballots effectively in the 1920s arguing instead that in state and local politics women made the most of their votes Schuyler explores get out the vote campaigns staged by black and white women in the region and the response of white politicians to the sudden expansion of the electorate Despite the cultural expectations of southern womanhood and the obstacles of poll taxes literacy tests and other suffrage restrictions southern women took advantage of their voting power Schuyler shows Black women mobilized to challenge disfranchisement and seize their right to vote White women lobbied state legislators for policy changes and threatened their representatives with political defeat if they failed to heed women s policy demands Thus even as southern Democrats remained in power the social welfare policies and public spending priorities of southern states changed in the 1920s as a consequence of woman suffrage
