1984 Year Of Cancer:

Cancer in Adolescents and Young Adults Archie Bleyer, Ronald Barr, Lynn Ries, Jeremy Whelan, Andrea Ferrari, 2016-11-17 This is the second edition of the only book to be devoted exclusively to the total cancer picture in adolescents and young adults AYA now expanded from the age range 15-29 to that of 15-39 years For each of the diverse spectrum of cancers encountered in the AYA group the epidemiology natural progression diagnostic approaches and treatment options are described with special emphasis on strategies for early detection and prevention Comparison is made with management of both younger and older patients and model programs are presented that address common diagnostic staging treatment and psychosocial shortcomings in the AYA group Detailed attention is also paid to principles and practices of care with consideration of psychosocial and quality of life issues social support systems rehabilitation late effects insurance and economic aspects of health care among other topics The authors make compelling arguments for integrated strategies that allow young adults to benefit from the combined expertise of pediatric and adult oncologists in systems that identify both the complex disease and the social issues specific to this population The proposed models of care include relationships with other specialties that do not specifically target this age group i.e. infectious disease endocrinology pulmonary medicine nephrology gastroenterology thoracic and abdominal surgery urology otolaryngology and neurosurgery New patterns of communication are advocated and endorsed as essential for productive interaction involving these specialties References are extensive and are oriented toward users in pediatric hematology oncology medical oncology radiation oncology surgical oncology gynecologic oncology oncology nursing psycho oncology social work epidemiology public health and health services research The contributing authors are from the United States the United Kingdom Canada Italy France Israel Switzerland and Australia Germany Japan and the Netherlands p Journal of the National Cancer Institute ,1998 Each issue is packed with extensive news about important cancer related science policy politics and people Plus there are editorials and reviews by experts in the field book reviews and commentary on timely topics *Cancer in Children* P.A. Voute, A. Barrett, H.J.G. Bloom, J. Lemerle, M.K. Neidhardt, 2012-12-06 *Cancer in Children* is the first volume in this new series sponsored by the DICC on the treatment of cancer The editors and authors feel strongly that more standardization is needed on a worldwide basis in cancer therapy This of course is only possible if experts from all countries subscribe to a joint policy of making their treatment designs available to practising oncologists all over the world Current Treatment of Cancer will discuss all the equipment and methods now in use in cancer therapy It will cover all types of cancer thus providing the reader with comprehensive information on cancer management The appearance of a book on paediatric oncology as the first in the series is intentional in recent decades there has been a tremendous improvement in the treatment of cancer in children and there is hope for even further success in this fight We are convinced that this book and the series it is introducing will help us to make a concerted response to the challenge of cancer Impacts of Past Uranium Mining
