Loss During Pregnancy Or in the Newborn Period James R. Woods, Jennifer L. Esposito Woods, 1997. This volume examines the biologic implications and psychological challenges that occur with the loss of a baby during pregnancy or in the newborn period. The editors include practical clinical cases with commentaries provided by outside professional practitioners. They address pregnancy loss from many angles: loss at the various stages of pregnancy, the medical causes of loss, methods of preventing fetal death, the roles of various care providers, and issues of counseling and ethics. The book encourages a broad definition of pregnancy loss by including such information as the feelings of loss experienced by birth parents who give children up for adoption. **Predicasts F & S Index Europe Annual**, 1989 **Chilton's Truck and Van Repair Manual 1982-88** Chilton Automotive Books, 1988-03 *Predicasts Technology Update*, 1988 *Mosby's Guide to Physical Examination* Henry M. New technologies are altering the relationship between knowledge, power, and learning. The explosion of information resulting from the proliferation of Internet use has led to new questions about the nature of knowledge and how it is legitimated. At the same time, the new emphasis on learning as a lifelong process is changing relationships between teachers and learners and focusing on the multiplicity of sites in which learning can take place. This book considers the influence of the information age on the changing relationship between power and knowledge and how this affects learning in a wide range of situations, from the school to the learning organization and from the musical conservatoire to the high tech workplace. *Forthcoming Books* Rose Arny, 1988-07 **Official Gazette of the United**
