Murray,S. Tina Piper,Kirsty Robertson,2014-03 Putting Intellectual Property in its Place examines the relationship between creativity and intellectual property law on the premise that despite concentrated critical attention devoted to IP law from academic policy and activist quarters its role as a determinant of creative activity is overstated The effects of IP rights or law are usually more unpredictable non linear or illusory than is often presumed Through a series of case studies focusing on nineteenth century journalism fake art plant hormone research between the wars online knitting communities creativity in small cities and legal practice the authors discuss the many ways people comprehend the law through information and opinions gathered from friends strangers coworkers and the media They also show how people choose to share create negotiate and dispute based on what seems fair just or necessary in the context of how their community functions in that moment while ignoring or reimagining legal mechanisms In this book authors Murray Piper and Robertson define the everyday life of IP law constituting an experiment in non normative legal scholarship and in building theory from material and located practice *The Culture of Knitting* Joanne Turney,2009-08-01 From booties and scarves to art and fashion The Culture of Knitting addresses knitting as art craft design fashion and performance and as an aspect of

the everyday Drawing on a variety of sources including interviews with knitters from different disciplines as well as amateurs the text breaks down hierarchical boundaries and stereotypical assumptions that have previously negated the academic study of knitting The book also highlights the diversity and complexity of knitting in all its guises The Culture of Knitting investigates not merely why knitting is so popular now but also the reasons why knitting has such longevity By assessing the literature of knitting manuals patterns social and regional histories alongside testimonial discussions with artists designers craftspeople and amateurs the book offers new ways of seeing and new methods of critiquing knitting without the constraints of disciplinary boundaries in the hope of creating an environment in which knitting can be valued recognized and discussed
