Boy Who Couldn't Stop Washing:

The Boy Who Couldn't Stop Washing Judith L. Rapoport, 1991-12-03 In this classic study of Obsessive Compulsive Disorder OCD a distinguished psychiatrist offers hope and help for those suffering from mental illness suggesting pathways forward through behavioral therapies and medication Drawing on the extraordinary experiences of her patients Dr Judith Rapoport unravels the mysteries surrounding OCD an emotionally crippling affliction that affects millions of Americans The Boy Who Couldn't Stop Washing follows Dr Rapoport's patient the pseudonymous David who developed such severe OCD symptoms that he spent so long each day washing himself and cleaning his home that he could no longer keep a job Through the example of her treatment of David Dr Rapoport explores the ways in which OCD manifests how it affects individuals and their families and the treatment options available to those who suffer from this mental illness Revealing breakthroughs in diagnosis therapies and medication as well as offering guidelines for diagnosis resources and references Dr Rapoport offers hope and practical advice for those seeking help for themselves or their loved ones with OCD *Madness on the Couch*

Edward Dolnick, 1998 *Madness on the Couch* tells the dramatic story of psychiatry's failed quest to conquer mental illness through talk therapy Focusing on three diseases schizophrenia autism and obsessive compulsive disorder Dolnick describes in detail how psychoanalysts began to blame the victims for their own illnesses of photos **Classic Case Studies in Psychology** Geoff Rolls, 2014-11-26 The human mind is both extraordinary and compelling But this is more than a collection of case studies it is a selection of stories that illustrate some of the most extreme forms of human behaviour From the leader who convinced his followers to kill themselves to the man who lost his memory from the boy who was brought up as a girl to the woman with several personalities Geoff Rolls illustrates some of the most fundamental tenets of psychology Each case study has provided invaluable insights for scholars and researchers and amazed the public at large Several have been the inspiration for works of fiction for example the story of Kim Peek the real Rain Man This new edition features three new case studies including the story of Charles Decker who was tried for the attempted murder of two people but acquitted on the basis of a neurological condition and Dorothy Martin whose persisting belief in an impending alien invasion is an illuminating example of cognitive dissonance In addition each case study is contextualized with more typical behaviour while the latest thinking in each sub field is also discussed *Classic Case Studies in Psychology* is accessibly written and requires no prior knowledge of psychology just an interest in the human condition It is a book that will amaze sometimes disturb but above all enlighten its readers

The Boy Who Finally Stopped Washing John B., 2008-03 This is the only OCD book written by a recovering OCD sufferer who also happens to be an OCD therapist The Boy Who Finally Stopped Washing is not only a memoir about one OCD sufferer but also included are a rich variety of self help techniques and E RP treatment utilized by many in the book E RP exposure and response prevention the OCD treatment of choice is thoroughly explained and demonstrated in the authors as well as his clients struggles The Boy Who Finally Stopped Washing derives its title and starts

a troubled boy's story from the best selling book *The Boy Who Couldn't Stop Washing* 9780451172020 by Judith Rapoport MD The former book illustrates one man's struggles with obsessive compulsive disorder OCD for more than twenty five years He is both a sufferer and a psychotherapist who has primarily treated OCD for over ten years he elaborates on his views about managing and tolerating his and others symptoms By carefully scrutinizing important life events the author brings OCD to life using humor and profound understanding and insight An entire section of the book looks at how loved ones have and do observe and respond to difficulties imposed upon the author and his relationships with others Also included in the book is a history of the author's revelation of his diagnosis and his experiences about how others react to learning his very personal information

Private Moments, Secret Selves Jeffrey A. Kottler,1991-06 **Thinking in Pictures** Temple Grandin,1996 In this unprecedented book a gifted animal scientist who is also autistic delivers a report on autism written from her unique perspective What emerges is the document of an extraordinary human being one who bridges the gulf between her condition and our own shedding light on the riddle of our common identity *The American Journal of Psychiatry* ,1991 *Personal Growth and Behavior* ,1994 *Personal Growth and Behaviour* Duffy,1994-02 *Annual Editions* Karen Duffy,1993-02 *Abnormal Child Psychology* Eric J. Mash,David A. Wolfe,1999 In this current and scholarly text authors Eric Mash and David Wolfe achieve a balance between developmental clinical diagnostic and experimental approaches to child and adolescent psychopathology The book traces the developmental course of each disorder and shows how biological psychological and sociocultural factors interact with the child's environment First person accounts and cases enrich the reader's understanding of what children and adolescents with disorders experience emphasizing the strengths of individual children Case materials are integrated throughout each chapter to help students understand the chapter's key topics Engaging first person accounts frequently introduce the chapters and reflect the authors clinical experience In every disorder chapter the authors present an overview of the most empirically supported approaches to intervention The authors discuss the unique as well as general aspects of major intervention strategies for each disorder The authors pay attention to risk and protective factors and the conditions that lead to effective coping in some children despite adverse early circumstances The authors have organized the book into logical five part structure Understanding Abnormal Child Psychology Behavioral Disorders ADHD and disruptive behavior disorders Emotional Disorders anxiety and mood disorders Developmental and Learning Disorders mental retardation autism childhood onset schizophrenia and communication and learning disorders and Problems Related to Physical and Mental Health health related disorders eating disorders and child abuse and neglect This organization provides students with a framework for understanding the disorders that will enhance their mastery of the material

Clinical Psychopharmacology Made Ridiculously Simple John Preston,James Johnson,1997 A brief practical review of the indications for and use of pharmacologic agents in the treatment of psychological disorders Fourth edition **Polly's Magic Games** Constance H. Sisson, 2010 Featuring memorable first person accounts of mentally ill individuals Voices from the Inside Readings on the Experiences of Mental Illness allows students to connect directly with real life experts who know mental illness all too intimately This unique anthology addresses a variety of central topics surrounding mental illness including suicide hospitalization the meanings of medication the experiences of caregivers and the stigma attached to mental illness Each section opens with a sensitizing introduction

A Mind of Its Own Ruth Dowling Bruun, Bertel Bruun, 1994 Tourette s syndrome is an unusual medical condition with a host of possible symptoms some rather mundane others extremely bizarre The more curious symptoms such as the involuntary use of profanities have caught the attention of the public and have baffled physicians who are still seeking scientific explanations In spite of the attention paid to Tourette s syndrome in recent years there is still no book which explains the condition to patients and their families in an informative comprehensive and accessible manner This book fills that need It presents factual information on all important aspects of TS along with a composite case history The story of Michael Lockman who typifies the average child with TS is woven into the factual text which contains information on symptomology diagnosis natural history biochemistry genetics associated disorders treatment and related topics The authors have purposely chosen to portray a relatively mild case of TS since the majority of cases are mild yet the more severe symptoms of TS are also introduced in the course of the story Much of the value of the story lies in the way it presents Tourette s syndrome and its associated disorders in the context of everyday experience Presenting information never before available in one source this book will be invaluable to anyone concerned with this disorder including those suffering from TS and their families
