

**"A chiller that will scare you—literally—
out of your skull!"** —*Cosmopolitan*

Brain

Something is terribly wrong at the Hobson University Medical Center. A young woman has died on the operating table and her brain has been secretly removed. Others are showing symptoms of a bizarre mental illness that eludes all medical sense. All the patients are young and beautiful women...and they are all mysteriously disappearing.

Dr. Martin Phillips puts his career, his life—and that of his lover Denise—in jeopardy as he penetrates the secret inner sanctums of the medical world to reveal a horrifying experiment being carried on by men gone mad with the lust for power.

Robin Cook, a surgeon, lives in Boston with his wife, Barbara. He divides his time between medicine and writing. His previous books include *The Year of the Intern*, *Coma*, *Sphinx*, and the bestselling *Fever*.
