Brazil, State and Struggle Latin America Bureau, London, 1982 *The Struggle for Development* Benjamin Selwyn, 2018-03-02 The world economy is expanding rapidly despite chronic economic crises Yet the majority of the world s population live in poverty Why are wealth and poverty two sides of the coin of capitalist development What can be done to overcome this destructive dynamic In this hard hitting analysis Benjamin Selwyn shows how capitalism generates widespread poverty gender discrimination and environmental destruction He debunks the World Bank s dollar a day methodology for calculating poverty arguing that the proliferation of global supply chains is based on the labour of impoverished women workers and environmental ruin Development theories from neoliberal to statist and Marxist are revealed as justifying and promoting labouring class exploitation despite their pro poor rhetoric Selwyn also offers an alternative in the form of labour led development which shows how collective actions by labouring classes whether South African shack dwellers and miners East Asian and Indian Industrial workers or Latin American landless labourers and unemployed workers can and do generate new forms of human development This labour led struggle for development can empower even the poorest nations to overcome many of the obstacles that block their way to more prosperous and equitable lives **The Pluriverse of Human**

Rights: The Diversity of Struggles for Dignity Boaventura De Sousa Santos, Bruno Martins, 2021-06-21 The impasse currently affecting human rights as a language used to express struggles for dignity is to a large extent a reflection of the epistemological and political exhaustion which blights the global North Since the global hegemony of human rights as a language for human dignity is nowadays incontrovertible the question of whether it can be used in a counter hegemonic sense remains open Inspired by struggles from all corners of the world that reveal the potential but above all the limitations of human rights this book offers a highly conditional response The prevailing notion of human rights today as the hegemonic language of human dignity can only be resignified on the basis of answers to simple questions why does so much unjust human suffering exist that is not considered a violation of human rights Do other languages of human dignity exist in the world Are these other languages compatible with the language of human rights Obviously we can only find satisfactory answers to these questions if we are able to envisage a radical transformation of what is nowadays known as human rights Herein lies the challenge posed by the Epistemologies of the South reconciling human rights with the different languages and forms of knowledge born out of struggles for human dignity **The Constitutional System of Brazil** Herman Gerlach
