Brazil Center, 2003* **Literature and Ethics in Contemporary Brazil** Vinicius Mariano De Carvalho, Nicola Gavioli, 2017-02-24 When Brazil was honored at the Frankfurt Book Fair in 2013 the Brazilian author Luiz Ruffato opened the event with a provocative speech claiming that literature through its pervasive depiction and discussion of otherness has the potential to provoke ethical transformation This book uses Ruffato's speech as a starting point for the discussion of contemporary Brazilian literature that stands in contrast to the repetition of social and cultural clichés By illuminating the relevance of humanities and literature as a catalyst for rethinking Brazil the book offers a resistance to the official discourses that have worked for so long to conceal social tensions injustices and secular inequities in Brazilian society In doing so it situates Brazilian literature away from the exotic and peripheral spectrum and closer to a universal and more relevant ethical discussion for readers from all parts of the world The volume brings together fresh contributions on both canonical contemporary authors such as Graciliano Ramos Rubem Fonseca and Dalton Trevisan and traditionally silenced writing subjects such as Afro Brazilian female authors These essays deal with specific contemporary literary and social issues while engaging with historically constitutive phenomena in Brazil including authoritarianism violence and the systematic violation of human rights The exploration of diverse literary genres from novels to graphic novels from poetry to crônicas and engagement with postcolonial studies gender studies queer studies cultural studies Brazilian studies South American literature and world literature carves new space for the emergence of original Brazilian thought **Routes of Passage: Rethinking the African Diaspora** Ruth Simms Hamilton, 2006-11-09 Routes of Passage provides a conceptual substantive and empirical orientation to the study of African people worldwide The book addresses issues of geographical mobility and geosocial displacement changing culture political and economic relationships between Africa and its diaspora interdiaspora relations political and economic agency and social mobilization including cultural production and psychocultural transformation existence in hostile and oppressive political and territorial space and confronting interconnected relations of social inequality especially class gender nationality and race **Africas of the Americas**, 2008-03-31 The anthropology and history of African American religious formations has long been dominated by approaches aiming to recover and authenticate the historical transatlantic continuities linking such traditions to identifiable African source cultures While not denying such continuities the contributors to this volume seek to transcend this research agenda by bracketing Africa and African pasts as objective givens and asking instead what role notions of Africanity and pastfulness play in the social and ritual lives of historical and contemporary practitioners of Afro Atlantic religious formations The volume's goal is to open up contextually salient claims to African origins to empirical scrutiny and so contribute to a broadening of the terms of debate in Afro Atlantic studies *Brazil* Vanderbilt University. Endowment for the Humanities At the border where Brazil Paraguay and Argentina meet under the scrutiny of the US and Mercosur the large South American trade bloc Arabs have long fulfilled what author John Tofik Karam calls a manifold destiny Karam casts Lebanese Palestinians and Syrians at this American border as circumstantial protagonists of a hemispheric saga For the more than six decades since they started settling at the trinational border between Brazil Paraguay and Argentina Arabs have animated the hemisphere Their transnational economic and social projects reveal a heretofore unacknowledged venue of exceptional rule in which the community accommodates and abides multiple states varied suspensions of norms and laws Arabs set up businesses and community centers at the border under authoritarian military governments between the 1950s and 1980s thereafter when denied full democratic enfranchisement they instead underwent increasing surveillance from the 1990s to today Karam reveals an unfinished history of exceptional rule that Arabs accommodate from an authoritarian past to a counterterrorist present Karam s riveting account draws on anthropological and historical research from each side of this trinational South American border as well as from the US where government bureaucrats still suspect Arabs at the border of would be terrorist subversion Offering a fresh understanding of the hemisphere *Manifold Destiny* brings the transnational turn of Middle Eastern studies to bear upon the fields of American studies Brazilian studies and Latin American studies

Adopting the Track of Phrase: An Emotional Symphony within **Brazilian Studies**

In a world consumed by monitors and the ceaseless chatter of instantaneous conversation, the melodic beauty and emotional symphony produced by the prepared term often disappear in to the backdrop, eclipsed by the persistent noise and disruptions that permeate our lives. But, nestled within the pages of **Brazilian Studies** a marvelous fictional value full of natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, that interesting masterpiece conducts readers on an emotional journey, skillfully unraveling the concealed songs and profound influence resonating within each carefully constructed phrase. Within the depths of the touching evaluation, we shall explore the book is key harmonies, analyze its enthralling writing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
