A little bit about me My first experience with computers was on Christmas day when I opened up a game called Pong It was one of the first TV computer games and at the time it was cutting edge Fast forward a bit and my dad bought an Atari 800 computer that I somehow convinced him was better than the Apple alternative Needless to say I used the Atari more than he did Fast forward a bit more and I was in college studying computer science When I graduated my first real job was programming expert systems That job only lasted a short while and then I became a System Analyst working on all sorts of Government Projects In 2008 I moved to a place called Austin and really got my feet wet designing websites for clients During that time I also became interested in all things SEO but never really got to flex my muscles It wasn t until 2016 that I

found myself unemployed and wondering what I should do in life After countless resumes failed to get traction in the job market for positions I was interested in a realization hit me that maybe I don t need a company to work for but rather work for myself My wife Kathleen and our pug Olaf were very supportive of the idea So I started a company called <http://HangTenSEO.com> with the goal to help clients out rank their competition Along the way I also started writing articles on SEO best practices which were in many ways teaching moments for me In writing the articles I really had to understand the subjects I was writing about and how to use the techniques to get the best results
