The Fools' Journey Yona Pinson, 2008 Tracing the evolution of the newly emerging iconographical patterns of fools and folly this book sheds light on the original and innovative invention that was an exclusive creation of northern Renaissance art and culture The novel theme of the fools journey as expressed mainly through prints in Germany and later in the Netherlands in the sixteenth century is revealed as an ironical paraphrase parodying the well established Christian topos the Pilgrimage of Life or the Pilgrimage of the Human Soul which offered the

believer the opportunity to travel on the road toward redemption The new mythical image of the fools journey however confronts the contemporary reader viewer with the image of the fool on his voyage that leads him instead to his doomed fate thereby reflecting a pessimistic world view The newly emerging visual vocabulary is considered in relation to analogical contemporary didactic and satirical theatrical performances such as the rederijkers plays the sottes and also carnival processions Proposing a new reading of Sebastian Brant s The Ship of Fools Das Narrenschiff Basel 1494 a landmark in the new iconography of the allegorical journey this study recognizes as well the power of the visual image employed in the woodcuts illustrations accompanying the treatise as a tool of moral teaching used as a means of influencing the larger urban audience for whom word and image were sometimes interchangeable Concomitantly the divergence between verbal expression and visual language may be seen to define the inherent codes of the visual expressions It is precisely the gap between literary sources and visualization the very moment when visual vocabulary crystallizes and image departs from word creating its own autonomous expression and language that attracts our attention The range and diversity of visual material related to the fools journey topos addresses a wide spectrum of audiences This study also takes into consideration the strategies of communicating meanings and values to various publics Addressing the wider urban public that was not necessarily lettered notably women illustrated books and images were envisaged first of all as didactic tools In accordance the painters engravers attended their public with rather simple visual elaborations that could be easily deciphered Paintings drawings and prints intended for highly cultivated elite circles of urban society among them works by Albrecht Durer and Hieronymus Bosch demanded greater intellectual involvement on the part of the beholder challenging the sophisticated viewer to re create a meaningful ensemble out of the various scenes and motifs presented within complex compositions

of tapestry during the seventeenth century in Flanders when it was considered the most important form of textile and an item of luxury The publication includes a discussion of Jordaens s preparation for work in this field his approach to design his patrons and his relationship to contemporaries in the same area of artistic endeavour The six major series designed by Jordaens The History of Alexander the Great The Life of Odysseus Scenes from Country Life The Riding School Proverbs and the Life of Charlemagne are thoroughly analyzed with regard to surviving visual material and written statements the interpretation and content of the narrative scenes and the significance of the themes for the seventeenth century A catalogue raisonne provides data on all the tapestries woven after Jordaens s designs with the preparatory works for them including drawings modelli and cartoons The initial studies in watercolour are particularly illuminating about his unusual sensitivity for this type of work The tapestry weavers and various sets they produced after his designs are also established Jordaens was especially prolific in the area of tapestry design and it is shown that some of his most innovative and sophisticated inventions were produced for tapestry His effort in this area was one of the most unique in Flanders and his achievement remains distinct
