Brain Function and Reading Disabilities Lester Tarnopol, Muriel Tarnopol, 1977-01-01 **Basic Functions of Language, Reading and Reading Disability** Evelin Witruk, Angela D. Friederici, Thomas Lachmann, 2002-05-31 This highly interdisciplinary project presents new results and the state of the art of knowledge in the psychology and neurophysiology of language reading and dyslexia It concentrates on basic cognitive functions of understanding and producing language and disorders within its spoken and written execution The book grew out of the Basic Mechanisms of Language and Language Disorders conference Leipzig Sept 1999 **Neural basis of reading acquisition and reading disability** Li-Hai Tan, Charles A. Perfetti, Johannes Ziegler, Bruce D. McCandliss, 2023-07-04 *The Connections Between Language and Reading Disabilities* Hugh W. Catts, Alan G. Kamhi, 2005-01-15 This is an edited book based on papers presented at a 2003 invitee only conference under the sponsorship of the Merrill Advanced Studies Center of the University of Kansas The purpose of the gathering was to discuss theoretical issues and research findings *Reading Disabilities* Donald G. Investigating the Issues of Reading Disabilities George Daniel Spache, 1976 **The Psychology of Reading and Spelling with Special Reference to Disability** Arthur Irving Gates, 1922 *The Cognitive Neuroscience of Reading* Rebecca Sandak, Russell A. Poldrack, 2018-12-07 This special issue of *Scientific Studies of Reading* highlights the great deal of progress that has been made recently in understanding the neurobiological foundations of basic processes in reading The papers demonstrate how functional neuroimaging techniques have provided novel insights into how reading works in the brain and how these processes may be disorganized in reading disorders Importantly they illustrate that understanding how reading works in the brain is not a simple end goal but rather reveals new phenomena that will serve to constrain theories of reading Although these articles make clear that full understanding of these processes is well off in the distance the editors hope that they will inspire further collaboration between reading researchers and neuroscientists *Dyslexia: Problems of Reading Disabilities* Herman K. Goldberg, Gilbert B. Schiffman, 1972 *Learning Disabilities and Brain Function* William H.
