Local Seo Tom Crandall,2016-11-17 Ever wonder how businesses rank locally when performing a Google Search I did so I set off on a mission to uncover a consistent method to help boost a business s local ranking In my very first publication Local SEO A Roadmap To Successful Local Ranking I am going to walk you through some of the best Local SEO techniques to get a business not only discovered locally but ranked Whenever you perform a Google Search Google s algorithm takes over and

provides result listings that best match the criteria according to Google's page and domain ranking factors. For those that don't quite understand ranking factors, let me explain. Each page and domain has a ranking value. These are typically called Page and Domain Authority. The higher the authority, the higher the page will rank. Google and other search engines determine a page's rank or authority based on various search metrics including content, keywords, number of backlinks, age of the website, title, header tags, images, and so on. For any given localized search, the results are usually broken out by Paid Advertising (Shown at the top) and Local Business listings (Business listings from Google Maps Organic Search Results). Everything else in this book, Local SEO: A Roadmap To Successful Local Ranking, I am focusing on the Local Business Listings and how anyone using my methods can boost their local presence on the web.

A little bit about me: My first experience with computers was on Christmas day when I opened up a game called Pong. It was one of the first TV computer games and at the time it was cutting edge. Fast forward a bit and my dad bought an Atari 800 computer that I somehow convinced him was better than the Apple alternative. Needless to say, I used the Atari more than he did. Fast forward a bit more and I was in college studying computer science. When I graduated, my first real job was programming expert systems. That job only lasted a short while and then I became a System Analyst working on all sorts of Government Projects. In 2008, I moved to a place called Austin and really got my feet wet designing websites for clients. During that time, I also became interested in all things SEO but never really got to flex my muscles. It wasn't until 2016 that I found myself unemployed and wondering what I should do in life. After countless resumes failed to get traction in the job market for positions I was interested in, a realization hit me that maybe I don't need a company to work for but rather work for myself. My wife Kathleen and our pug Olaf were very supportive of the idea. So I started a company called <http://HangTenSEO.com> with the goal to help clients outrank their competition. Along the way, I also started writing articles on SEO best practices, which were in many ways teaching moments for me. In writing the articles, I really had to understand the subjects I was writing about and how to use the techniques to get the best results.

You don't need theory. You need calls. I wrote this for local owners who want a clear path to show up in Google Maps and organic search, then turn visitors into booked jobs. Here's the order of operations you'll follow: Google Business Profile, categories, services, photos, and the small edits that move you to the short list. Money pages, a phone-first layout, one offer and proof that answers "Why you" in seconds. Internal links, a simple loop that guides people to your best pages without hiding the contact button. Reviews, what to ask for, when to ask, and how to show them so they build trust. Content that earns clicks, short answers to real questions customers ask before they call. Links and citations, how to get the ones that count, clean up bad records, and ignore the noise. Multi-location basics, what belongs on each location page and how to avoid copy-paste junk. Programmatic guardrails, scale pages without tripping quality filters. You'll also get a 90-day plan with weekly steps, quick-win checklists, and snapshots from real businesses. The tone is plain English. Short paragraphs, clear headings, and screenshots you can copy from. This book is for

you if 1 You own a local service company and want something you can execute between jobs 2 You've tried blog sprawl and SEO tricks that never led to calls 3 You want a plan you can give to a teammate or an agency and hold them to it What you won't get fluff filler or vague promises No long theory chapters No chasing shiny features that vanish next month Just the steps that keep producing calls About the author I help local businesses grow with clear repeatable SEO I focus on plain language strong service pages and proof that earns trust Open the book choose the Busy Owner path and start with your first three wins this week *SEO For Your Business* J.A.
