Debate And Compromise:

America's Great Debate Fergus M. Bordewich, 2012-04-17 The Mexican War introduced vast new territories into the United States among them California and the present day Southwest When gold was discovered in California in the great Gold Rush of 1849 the population swelled and settlers petitioned for admission to the Union But the U S Senate was precariously balanced with fifteen free states and fifteen slave states Up to then states had been admitted in pairs one free and one slave to preserve that tenuous balance in the Senate Would California be free or slave So began a paralyzing crisis in American government and the longest debate in Senate history Fergus Bordewich tells the epic story of the Compromise of 1850 with skill and vigor bringing to life two generations of senators who dominated the great debate Luminaries such as John Calhoun Daniel Webster and Henry Clay who tried unsuccessfully to cobble together a compromise that would allow for California's admission and simultaneously put an end to the nation's agony over slavery were nearing the end of their long careers Rising stars such as Jefferson Davis William Seward and Stephen Douglas who ultimately succeeded where Clay failed would shape the country's politics as slavery gradually fractured the nation The Compromise saved the Union from collapse but it did so at a great cost The gulf between North and South over slavery widened with the strengthened Fugitive Slave Law that was part of the complex Compromise In America's Great Debate Fergus Bordewich takes us back to a time when compromise was imperative when men swayed one another in Congress with the power of their ideas and their rhetoric when partisans on each side reached across the aisle to preserve the Union from tragedy Think, Care, ACT Susan Gelber Cannon, 2011-07-27 Think Care Act Teaching for a Peaceful Future empowers youth to think critically care about the global community and act for the greater good It combines theory and practice addressing critical thinking media literacy compassionate classrooms and social action projects to build a peaceful future Proceedings and Debates of the Virginia State Convention of 1829-1830 Virginia. ground in argumentation and debate with its publication in 1963 Ehninger and Brockriede were the first to recognize debate as fundamentally a co operative enterprise with the competitive clash of ideas occurring within a framework in which everyone has the opportunity to speak in which everyone agrees to suspend judgment until all arguments are presented in which everyone agrees to abide by the decision of the adjudicator The most lasting legacy of the work is its break with formal deductive logic and its introduction of Stephen Toulmin s model of argument to undergraduate student debaters which since then has become a mainstay of what many have called the Renaissance of argumentation studies Without the work presented in Decision by Debate contemporary interdisciplinary views of argumentation that now dominate many disciplines might have never have taken place or at least have been severely delayed
