Debating Darwin Adventures Of A Scholar:

Debating Darwin John C. Greene, 1999 **Evolution** Peter J. Bowler, 2009-09-08 Since its original publication in 1989 *Evolution The History of an Idea* has been recognized as a comprehensive and authoritative source on the development and impact of this most controversial of scientific theories This twentieth anniversary edition is updated with a new preface examining recent scholarship and trends within the study of evolution *Space, Time and the Limits of Human Understanding* Shyam Wuppuluri, Giancarlo Ghirardi, 2016-12-01 In this compendium of essays some of the world's leading thinkers discuss their conceptions of space and time as viewed through the lens of their own discipline With an epilogue on the limits of human understanding this volume hosts contributions from six or more diverse fields It presumes only rudimentary background knowledge on the part of the reader Time and again through the prism of intellect humans have tried to diffract reality into various distinct yet seamless atomic yet holistic independent yet interrelated disciplines and have attempted to study it contextually Philosophers debate the paradoxes or engage in meditations dialogues and reflections on the content and nature of space and time Physicists too have been trying to mold space and time to fit their notions concerning micro and macro worlds Mathematicians focus on the abstract aspects of space time and measurement While cognitive scientists ponder over the perceptual and experiential facets of our consciousness of space and time computer scientists theoretically and practically try to optimize the space time complexities in storing and retrieving data information The list is never ending Linguists logicians artists evolutionary biologists geographers etc all are trying to weave a web of understanding around the same duo However our endeavour into a world of such endless imagination is restrained by intellectual dilemmas such as Can humans comprehend everything Are there any limits Can finite thought fathom infinity We have sought far and wide among the best minds to furnish articles that provide an overview of the above topics We hope that through this journey a symphony of patterns and tapestry of intuitions will emerge providing the reader with insights into the questions What is Space What is Time Chapter 15 of this book is available open access under a CC BY 4.0 license

Scriptural Geography Edwin James Aiken, 2009-11-30 For nineteenth century scholars the Holy Land was not just a region of the globe it was an idea an intellectual and moral space charged with the heat of debate between those trying to understand the religious social and scientific upheavals of the time Edwin Aiken explores the various ways in which geographical knowledge was used in these debates In particular he shows how religious writers called upon geographical knowledge to the benefit of their readers The result is an original and stimulating work of scholarship that demonstrates the significance of the geography of the Holy Land in Western thought and argument and makes important contributions to the history of geography the nature of Orientalism and to the evolving relationship between religion and science
