Debating Diversity Clashing Perspectives On Race And Ethnicity In America:

Debating Diversity Ronald T. Takaki, 2002 In the nineteenth century Herman Melville wrote America was settled by peoples of all nations You cannot spill a drop of American blood without spilling the blood of the whole world We are not a narrow tribe At the beginning of the twenty first century America is more ethnically diverse than ever before Will we fear this expanding diversity as the disuniting of America or will we embrace a more inclusive re definition of our national identity As the nation s preeminent scholar of multicultural studies Ronald Takaki invites us to address this question by debating diversity The overarching theme of his new anthology is the clash of perspectives over the master narrative of American history the powerful but mistaken story that this country was settled by European immigrants and that Americans are white The collection opens with the lively intellectual exchange between Nathan Glazer and Ronald Takaki on ethnicity versus race it then turns to the contrasting interpretations of the frontier by Frederick Jackson Turner and Takaki Other debates include Samuel P Huntington and Elizabeth Martinez on the diversity of civilizations Irving Kristol and William Julius Wilson on inner city blacks Robert J Samuelson and Gregory Defreitas on Mexican immigration Governor Pete Wilson and Chancellor Chang lin Tien on affirmative action and James Q Wilson and Elliott Currie on crime and punishment The anthology closes with a debate between Arthur Schlesinger Jr and Takaki on whether we as Americans should pursue a vision of our society as a melting pot or as a multicultural democracy Embedded in all of the essays is the question Originating from different shores can we become one people of the United States of America An ideal text for diversity courses in Ethnic Studies Political Science American Studies History Sociology Anthropology and Education *Debating Diversity* will stir students to think critically about who we have been and who we are as Americans

Men in Color Josep M.

Armengol,2011-01-18 Comprising seven different chapters the collection Men in Color attempts to analyze and revisit the representation of ethnic masculinities both white and non white in and through contemporary U S literature and cinema If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities Men in Color attempts to provide an introductory perspective on different racialized masculinities simultaneously including African American Asian American Chicano Arab American and also white masculinity which is analyzed as another ethnic and gendered construct rather than as a paradigm of normalcy and universality By exploring several ethnic masculinities in relation to each other the present volume aims to highlight both the differences and the similarities between different patterns of masculinity showing how even as gender is inflected by race certain aspects or features of masculinity remain unchanged across the ethnic board Ultimately the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes such as the hypersexualization and or the feminization of ethnic males which recur in and across several ethnicities The constant tension and intersection between gender and race is the subject of this book which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st century world **Latinos**

Montserrat Guibernau answers these and other compelling questions about the future of national identity For Guibernau the nation states traditional project to unify its otherwise diverse population by generating a shared sense of national identity among them was always contested and was accomplished with various degrees of success in Europe and North America Such processes involved the cultural and linguistic homogenization of an otherwise diverse citizenry and were pursued by different means according to the specific contexts within which they were applied At present the impact of strong structural socio political and economic transformations has resulted in greater challenges being posed to the idea that all citizens of a state should share a homogeneous national identity Diversity is increasing and plans for further European integration contain the potential to generate significant tensions casting greater doubt on the classical concept of national identity As a result we are

faced with a set of new dilemmas concerning the way in which national identity is constructed and defined The book offers a theoretical as well as a comparative approach with case studies involving Austria Britain Canada and Spain as well as the European Union and the United States of America The Identity of Nations will be essential reading for advanced students and professional scholars in sociology politics and international relations Strangers in This Land E. Kronman,2007-01-01 This book describes the ever escalating dangers to which Jewish refugees and recent immigrants were subjected in France and Italy as the Holocaust marched forward Susan Zuccotti uncovers a gruelling yet complex history of suffering and resilience through historical documents and personal testimonies from members of nine central and eastern European Jewish families displaced to France in the opening years of the Second World War The chronicle of their lives reveals clearly that these Jewish families experienced persecution of far greater intensity than citizen Jews or longtime resident immigrants The odyssey of the nine families took them from hostile Vichy France to the Alpine village of Saint Martin Vesubie and on to Italy where German soldiers rather than hoped for Allied troops awaited Those who crossed over to Italy were either deported to Auschwitz or forced to scatter in desperate flight Zuccotti brings to light the agonies of the refugees unstable lives the evolution of French policies toward Jews the reasons
