**Decentralization and Self-government in Russia, 1830-1870** S. Frederick Starr, 1972 The turbulent period of renewal and innovation that followed Russia's crushing defeat in the Crimea has been interpreted historically in terms of the emancipation of the serfs and the evolution of the gentry class But contends Frederick Starr such an approach underestimates the breadth and intensity of the impulse for local reforms per se After tracing the ideological sources of the reform Mr Starr examines in detail the legislative process by which administrative decentralization and public self government were instituted Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Federalism and Local Politics in Russia** Cameron Ross, Adrian Campbell, 2008-10-27 This book examines federalism and regional and local politics in Russia Many commentators have alluded to the unique nature of Russia's dual transition and its difficult task of simultaneously reforming its economy and polity But there is in fact a third transition under way in Russia that is of no less importance the need to reconfigure central local relations and to create a stable and viable form of federalism Federal states are much more difficult to set up than unitary ones and forging a new federal system at the same time as privatising the economy and trying to radically overhaul the political system has clearly made Russia's transition triply difficult The book discusses how Vladimir Putin has re-asserted the power of the centre in Russia and tightened the federal government's control of the regions It shows how contrary to his rhetoric about developing Russia as a free and democratic state authoritarianism has been extended through his reorganisation of the Federation

Council his usurpation of powers to dismiss regional assemblies and chief executives and his creation of seven unelected super governors The book explores a wide range of issues related to these developments including a comparative study of Russian federalism and local politics ethnic federalism the merging of federal units regional governors electoral and party reforms and regional and local politics It also includes case studies of local and regional politics in specific regions *The History of Liberalism in Russia* Victor Leontovitsch, 2012-01-15 Foreword by Aleksandr Solzhenitsyn Translated by Parmen Leontovitsch The influence of liberalism in tsarist Russia is deeply problematic to most historians In this highly original study Victor Leontovitsch offers a reinterpretation of liberalism in a uniquely Russian form He documents the struggles to develop civil society and individual liberties in imperial Russia up until their ultimate demise in the face of war revolution and the collapse of the old regime From Catherine the Great s proposal of freedom for serfs born after a predetermined year through the creation of zemstvos by Alexander II and the emergence of the State Duma and a quasi constitutional monarchy under Nicholas II Leontovitsch chronicles the ebb and flow of liberal thought and action in the difficult circumstances of tsarist Russia He cites numerous examples of debates over civil rights property laws emancipation local jurisdiction political rights and constitutional proposals Focusing on liberal reforms and reformers within the governing elite Leontovitsch draws important distinctions between factions of radical but fundamentally illiberal progressives and true but often concealed liberalism This is the first English language translation of Leontovitsch s monumental work which was originally published to critical acclaim in German in 1957 Aleksandr Solzhenitsyn sponsored a Russian edition in 1980 and his introduction is translated for the foreword of this edition With a wide readership in today s Russia *The History of Liberalism in Russia* continues to resonate as a penetrating analysis of the historical precedents of liberal thought and its potential as a counterweight to current autocratic tendencies and the uncertainties of Russia s political future *Decentralization in Regional Fiscal Systems in Russia* Lev M. Freinkman, Plamen Yossifov, 1999 **Power Restructuring In China And Russia** Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher s power restructuring analysis is

noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics

**New Local Self-Government Reform in Russia**  
Irina Turgel,2013 Since 2006 in most of Federation subjects local government has been acting on the basis of new principles of territory organisation and financial and economic governance The key objective of the paper is to analyze the accordance of declared and real objectives of the municipal reform whether it has provided real economic independence of local government and its protection from voluntarism decisions taken at the level of Federation subjects Basing on the comparative analyze of fiscal decentralization indicators the author make conclusions on how these officially declared aims have been realised and formulated main results of the reform Formally the significant financial stabilization of local self government has been observed But real economic and financial autonomy of municipalities has been constrained sharply For examples the list of local taxes has been shortened now having only personal assets tax and land tax Thus on the one hand forming of territorial organisation of local government on settlement principle leads to having a big number of small low integrated municipalities On the other hand as a rule the policy of Federation subjects is aimed at preserving economic and political dependence of local government In this situation in short term period the activities of local authorities should be aimed at the overcoming of negative consequences connected with the forming of huge numbers of small and financially dependant settlements One of the solutions of this problem could be activation of integration and intermunicipal cooperation But in the long term period the sustainable political and economic development of Russian municipalities will be provided only on the base of the true economic autonomy and real political independence
