Decoding Samara:

Decoding Samara Patrick Deeley,2000 Patrick Deeley s fourth poetry collection uses the imagery of trees to explore human emotions The poems move from mythology the Dryads of the woods the local legends to a suburban landscape where the memories of trees and the presence of timber create an unsettling effect imaging that of the human struggle to make sense of our environment The title signifies coming to understand the relationship with our environment samara being the one seeded fruit with a wing of some trees

Wingspan Pat Boran,2006 Now in its 21st year the Dedalus Press is one of the major poetry imprints in Ireland In Wingspan A Dedalus Sampler poet and publisher Pat Boran presents a selection of recent and new work by 28 Irish and international poets on the Dedalus list among them Fergus Allen Thomas Kinsella Dolores Stewart and Macdara Woods showing something of the range and diversity that is the hallmark of the Dedalus list

The Hurley Maker's Son Patrick Deeley,2016-04-07 Patrick Deeley s train journey home to rural East Galway in autumn 1978 was a pilgrimage of grief his giant of a father had been felled the hurley making workshop silenced From this moment Patrick unfolds his childhood as a series of evocative moments from the intricate workings of the timber workshop run by his father to the slow taking apart of an old tractor and the physical burial of a steam engine from his mother s steady work on an old Singer sewing machine to his father s vertiginous quickstep on the roof of their house There are many wonderful descriptions of the natural world and delightful cameos of characters and incidents from a not so long ago country childhood In a style reminiscent of John McGahern s Memoir Deeley s beautifully paced prose captures the rhythms struggles and rough edges of a rural life that was already dying even as he grew This is an enchanting beautifully written account of family love loss and the unstoppable march of time

performance computing **BareBones** Geoffrey Zachary, 2024-12-08 Barebones Beneath the surface of humanity lies a secret so dangerous it could rewrite our very existence Dr Alex Kade was once a brilliant surgeon with a sterling reputation a man whose hands saved lives and whose name commanded respect But a tragic mistake cost him everything his career his family and his self worth Now haunted by guilt and scraping by in the shadows of his former life Kade is offered a lifeline he can't afford to refuse a high paying job with Genesis Biotech a shadowy corporation promising redemption and purpose The job Extract encoded genetic data the so called Barebones Code from human skeletons At first Kade rationalises the grisly work as just science a necessary step in the march of progress But it doesn't take long before he begins to suspect there's more to Genesis's operation than they're letting on When a cryptic warning from a rogue hacker named Samara Quinn points Kade toward a series of chilling discoveries he uncovers a horrifying truth Genesis isn't just unlocking human potential they're rewriting it Their experiments on the Barebones Code aim to engineer a perfect elite class one immune to disease pain and aging But the cost Lives sacrificed in secret families torn apart and a world reshaped into one where only the chosen few survive Now Kade finds himself hunted Shadowy operatives mercenaries and corrupt officials are closing in desperate to silence the one man who holds the key to exposing Genesis's plans With Samara at his side an unpredictable ally with her own vendetta against biotech corporations Kade must navigate a treacherous path through black market organ harvesting rings underground labs and a global web of corruption The deeper they dig the more they realise that the Barebones Code isn't just a scientific breakthrough it's a Pandora's box Unlocking its secrets could mean freedom for millions or total chaos As the stakes escalate Kade grapples with impossible choices How far is he willing to go to stop Genesis How much of his humanity is he willing to sacrifice in the process And can he live with himself if he fails Barebones is a gripping medical thriller that blends cutting edge science with pulse pounding suspense Through vividly cinematic scenes and emotionally grounded characters the story explores the moral costs of progress the blurred lines between hero and villain and the resilience of the human spirit when faced with unimaginable odds Perfect for fans of Michael Crichton's scientific intrigue Gillian Flynn's sharp psychological tension and the high stakes action of The Bourne Identity Barebones pulls readers into a world where every decision has life altering consequences and every choice could mean the difference between survival and extinction As Kade's journey hurtles toward its shocking conclusion one question looms Will he bury the truth to save himself or will he risk everything to expose the conspiracy carved into the bones of humanity itself The truth isn't just beneath the surface it's barebones
