## **Deductive Theology:**

**Deductive Theology** J. d. Myers, 2006-03-01 Against a backdrop of unprecedented turbulence and political friction in religious affairs Deductive Theology constructs a reasoned basis for Christianity that is capable of enduring the worst assaults of those who would prefer to believe that Christians are unreasonable It invites scientific scrutiny and rises above the scandals and deceit that are unavoidable defects of human religious institutions Myers is not a professional theologian but a scientist and engineer thus the sure grasp of logic at work in this book Deductive Theology reclaims for us a Christianity of rationality that is accessible to all through an objective evaluation of the human predicament The scientific thought process applied to theology forces some concessions on a few traditional teachings yet it eventually shines a refreshing new light that supports the crucial aspects of theology derived from scripture The book presents us with a sound recapitulation of the traditional Christian notion of a loving God desiring companionship with humanity while at the same time providing compelling and amusing arguments that expose the absurdity of alternative spirituality and New Age diversions from Christianity Those attracted to these alternatives might find it difficult to accept the key message of this book that man's spiritual imperative is based on surrender as opposed to empowerment Steering a careful course between the relativism of the Left and the fundamentalism of the right the author to his credit does not spare institutional Christianity a tongue lashing for its errors Myers approach is based on an appeal to rationality yet like Christ cleansing the temple he is not without moments of passion and indignation Most important he commands a healthy sense of humor that is indispensable in attacking such weighty subject matter *The Nature and Promise of Analytic Theology* Oliver D. Crisp, James Arcadi, Jordan Wessling, 2019-12-16 In the past decade analytic theology has established itself as a flourishing research program that includes academic journals monograph series a dedicated annual conference research centres on several continents and a growing and diverse body of work produced by scholars drawn from philosophy theology and biblical studies In this short monograph Oliver Crisp James Arcadi and Jordan Wessling introduce readers to analytic theology The work provides an account of analytic theology some of the main areas in which analytic theologians have worked and some of the prospects for the future of analytic theology going forward It also addresses some key objections to analytic theology as a theological method Written by three leading researchers in the field this work is an excellent way for scholars and students to get acquainted with this new theological movement *Encyclopedia of Theology* Karl Rahner, 1975-01-01 An essential and reliable reference work and manual of the Christian faith this book provides both students and interested readers with a basic text presenting the findings of modern scholarly thought and research Ecumenical in spirit and approach no responsible and inquiring Christian can afford to be without it **An Immigration of Theology** Simon C. Kim, 2012-05-03 The theological reflections of Virgilio Elizondo and Gustavo Gutierrez are examples of the ecclesial fruitfulness of the second half of the twentieth century Following the directives of Pope John XXIII and the Second Vatican Council Elizondo and

Gutierrez present the Gospel message in relevant terms to their own people by engaging the world as the Church of the poor Inspired by this moment in Church history while at the same time recognizing the plight of their people in their poor and marginal existence Elizondo and Gutierrez discovered a new way of doing theology by asking a specific set of questions based on their local context By investigating where God is present in the border crossers of the southwestern United States and the poorest of the poor in Latin America both theologians have uncovered a hermeneutical lens in rereading Scripture and deepening our understanding of ecclesial tradition Elizondo s mestizaje and Gutierrez s preferential option for the poor arose out of a theology of context a theological method that takes seriously the contextual circumstances of their locale By utilizing the common loci theologici of Scripture and tradition in conjunction with context and their own experience Elizondo and Gutierrez illustrate through their theologies how every group must embrace their own unique theological reflection

Studies in Sacred Theology ,1955      **An Incarnational Model of the Eucharist** James M. Arcadi,2018-05-31 The Eucharist is at the heart of Christian worship and at the heart of the Eucharist are the curious phrases This is my body and This is my blood James M Arcadi offers a constructive proposal for understanding Christ s presence in the Eucharist that draws on contemporary conceptual resources and is faithful to the history of interpretation He locates his proposal along a spectrum of Eucharistic theories Arcadi explores the motif of God s presence related to divine omnipresence and special presence in holy places which undergirds a biblical theological proposal concerning Christ s presence Utilizing recent work in speech act theory Arcadi probes the acts of consecration and renaming in their biblical and liturgical contexts A thorough examination of recent work in Christology leads to an action model of the Incarnation that borrows the notion of enabling externalism from philosophy of mind These threads undergird a model of Christ s presence in the Eucharist      Studies in Moral Theology: Some principles of moral theology and their application Kenneth Escott Kirk,1921      Some Principles of Moral Theology and Their Application Kenneth Escott Kirk,1920      *The American Journal of Theology* University of Chicago.
