Deep Mende Religious Interactions In A Changing African Rural Society:

Deep Mende D. Reeck,2023-09-20 The book series Studies of Religion in Africa covers the historical empirical and analytical comparative works on the religious worlds of Africans and people of African descent both within and outside the African continent Contributions to the series include the fields of African religions Christianity Islam and other historical and contemporary religious movements and their interactions The series has published an average of one volume per year over the last 5 years

Deep Mende Darrell Reeck,1976 **Christianity and the African Imagination** David Maxwell,Ingrid Lawrie,2022-08-08 During the twentieth century Christendom shifted its centre of gravity to the Southern Hemisphere Africa becoming the most significant area of church growth This volume explores Christianity s advance across the continent and its capturing of the African imagination From the medieval Catholic Kingdom of Kongo to a transnational Pentecostal movement in post colonial Zimbabwe the chapters explore how African agents priests and prophets martyrs and missionaries evangelists and catechists have seized Christianity and made it theirs Emphasizing popular religion the book shows how the Christian ideas and texts practices and symbols which have been adapted by Africans help them accept existential passions and empower them through faith to deal with material concerns for health and wealth and to overcome evil [African Charismatics](#)

Johnson Asamoah-Gyadu,2004-10-01 This volume examines Pentecostal charismatic renewal in an African context Ghanaian Pentecostalism in its modern charismatic form has become the most visible expression of renewal within indigenous Christianity The book first articulates the contribution of the older African initiated churches AICs to local Christianity arguing that in spite of a present decline the AICs have left an enduring theological imprint on indigenous Christian expression Furthermore it accounts for the rise of the new independent churches the charismatic ministries These have been proliferating across the West Africa sub region since the late 1970s In addition to this the book explores how the emphases of the new Ghanaian charismatics internationalism transformation prosperity healing and deliverance provide useful insights into the nature of modern African Pentecostal spirituality **Christianity and African Culture**

Klaus Fiedler,2023-08-14 The common charge laid against missionaries that they are destroyers of African culture is shown to be untrue of the missionaries treated in this book who worked with considerable success to integrate Christianity and African culture The author examines the endeavours of the missionaries from the perspective of the local Christians who were not themselves interested in Africanization as such One can thus find some missionaries defending against the elected African Church leadership the right of the Chagga Christians to circumcise their daughters and Nyakyusa Christians refusing to use African tunes because the missionaries influenced by National Socialism professed both love for African culture and White superiority This informative book based on local and archival research at Daressalam University is eminently readable It features the first historical study of Bruno Gutmann and provides case study material for teaching [Producing African Futures](#) ,2004-06-01 The cumulative implications for Africans of the neoliberal processes market speculation shifts in sites of

production new modes of consumption redefinition of the relation between states and their citizenry cannot be reduced to single parameters Three themes are central the neoliberal production of personhood the crises of youth and the moral panic in which so many of the wider reforms are registered in experience With contributions on marriage payments Muslim saints popular theatre homosexuality ritual haunts domestic reproduction masculine fantasy poetic justice spirit possession and corruption

African Indigenous Religions and Disease Causation David Westerlund,2006 This comparative and historical work provides rich material on religion and disease etiologies among five African peoples San Maasai Sukuma Kongo and Yoruba and discusses possible reasons for an important shift from spiritual beings such as deities to living humans like witches as agents of disease

The Religious Traditions of Africa Elizabeth Isichei,2004-11-23 This work is a first of its kind historical introduction to the major religions of Africa The vast majorities of Africa s peoples have been Muslim Christian or Traditionalist for a great deal of time making an inclusive study of these religions essential Isichei s work gives equal attention to all three religions and balances the elements of each to construct an easily accessible overview It is also the first book to provide a comprehensive look at the traditional religion in Africa filling the void in the literature on African religious history Written by a pioneering scholar in the African religious experience this volume blends in depth research and personnel accounts to explore the origins and effects of religion in Africa While primarily a work of history this book also incorporates the latest findings while engaging with current issues such as the interface of neo traditional religion and contemporary cultures This work includes four sections each dedicated to a separate religion detailed maps a glossary and a guide to further reading

Muslim Peoples: Maba Richard V. Weekes,1984

Overtly Muslim, Covertly Boni Mark R. J. Faulkner,2006 This volume explores the way of life of the Boni community a hunter gatherer people that straddle the Kenya Somali border in East Africa The Boni converted to Islam some fifty years ago and the reasons for this both internal and external to the community are identified The book argues that former indigenous religious activity far from having died out is now being renegotiated so as to reflect an evolving Boni self identity in a multi ethnic setting as well as allowing the fermentation of resistance in the face of attempts at cultural hegemony advanced by outside forces Employing a phenomenological approach and a methodology based on participant observation this volume identifies three contrasting spheres of religious activity the bush the village centre and individual homesteads
