The Education of the Child Rudolf Steiner, 1996-05-01 18 lectures in Dornach January 9 February 22 1920 CW 196 In the vast range of Rudolf Steiner's lectures jewels of all kinds lie hidden in plain sight awaiting only our discovery of them Such lectures contain a kind of wisdom not found anywhere else And sometimes as in *What Is Necessary in These Urgent Times* they also have a translucency and conviction that makes them transformational In early 1920 political economic social and spiritual chaos was everywhere The old world had fallen apart and would need to be rebuilt Anthroposophy too had to be remade Recognizing this Rudolf Steiner tirelessly working for the threefold social order establishing the first Waldorf school helping to create businesses and addressing the talented educated and idealistic young people who were beginning to turn toward Anthroposophy for answers In these lectures Steiner speaks in the new direct Michaelic way seeking the path to a new way of doing Anthroposophy Throughout the critical situation of the time he never lost his sense of humor or his compassion and equilibrium His tone is warm relaxed and intimate Rather than following a strictly predetermined path he speaks directly from the heart about what concerned him He stresses that the task of spiritual science is to awaken us to reality and to a true understanding of life that sees through illusions and understands the ever present potential of evil Speaking both esoterically and exoterically he returns repeatedly to the importance of community of meeting one another face to face heart to heart as

individuals Thus rather than seeking power and control we are called to cultivate trust and receptivity This takes a spiritual transformation We must learn to live this present life in the context of our greater spiritual life which extends from before birth through earthly life and into the life after death that precedes our next birth At the same time we must come to know the Christ who is to be met only in community Selfishness egotism has no part in the new way When someone is alone Christ is not there You cannot find Christ without first feeling a connection to humanity as a whole You must seek Christ on the path that connects you with all humankind To be connected only with your own inner experiences leads you away from Christ Steiner deals with many other important themes as well including imperialism the initiate behind Shakespeare Bacon and James I makers of our modern age and well as fascinating initiatory remarks on reincarnation esoteric physiology and psychology Running throughout the talks is the earnest admonition to be true to the spirit and the call to come to our senses and not fall prey to self pity Now as it was then the world needs us to be awake spiritually and we need the world to be awake spiritually There is nowhere to hide What Is Necessary in These Urgent Times is a translation from German of Geistige und soziale Wandlungen in der Menschheitsentwicklung GA 196 **Waldorf Education** Richard J. S. Blunt,1995 This thorough primer on Waldorf education provides the reader with a complete and easily accessible introduction to Rudolf Steiner and Waldorf educational theory Beginning with a short biography of Steiner and a review of his writings and the various works about him the author goes on to discuss Steiner's concept of Man and his ideas regarding the stages of development and their implications for education At this point Blunt undertakes a dear analysis of the Waldorf system including its aims principles and methods Here he discusses the training of Waldorf teachers the various subjects and how they are approached and ends with a description of how an average Waldorf school operates on each class level This is a wonderful introduction to the entire Waldorf process for anyone thinking about enrolling their child in one of the schools or for anyone merely interested in the Waldorf system of education **Holistic Education Review** ,1993 **The Publishers' Trade List Annual** ,1985 **The Cumulative Book Index** ,1984 A world list of books in the English language
