Interview John Rodden,2001-01-01 When authors are interviewed about their books or themselves much more is going on than a simple conversation The interview becomes a performance space for authorial orchestration and self promotion and interviewers in turn respond to such self display and theatrics Featuring absorbing conversations with nine well known authors including poets Richard Howard and Gerald Stern novelist Isabel Allende and scholar intellectual Camille Paglia

Performing the Literary Interview is the first in depth look at this type of performance art Interviews with poets fiction writers and intellectuals enable John Rodden to identify a range of rhetorical strategies and their effects and to formulate a typology for appreciating the various roles that interviewers and interviewees assume Traditionalists foreground their work rather than themselves raconteurs are storytellers who skillfully spin anecdotes and creatively showcase their personalities and advertisers more explicitly use the literary interview to promote and sell themselves This pioneering persuasive study stakes a claim to a new area of scholarly inquiry in the humanities The literary interview can no longer be considered only as a voyeuristic window on an author or a celebrity vehicle or even an entertaining diversion but should also be approached as a serious genre meriting scholarly attention and analysis

Forthcoming Books Rose Army,1996-06 **Rick Bass** Oliver Alan Weltzien,1998 **True West** William R. Handley,Nathaniel Lewis,2004-01-01 In no other region of the United States has the notion of authenticity played such an important yet elusive role as it has in the West Though pervasive in literature popular culture and history assumptions about western authenticity have not received adequate critical attention Given the ongoing economic and social transformations in this vast region the persistent nostalgia and desire for the real authentic West suggest regional and national identities at odds with themselves True West explores the concept of authenticity as it is used to invent test advertise and read the West The fifteen essays collected here apply contemporary critical and cultural theory to western literary history Native American literature and identities the visual West and the imagining of place Ranging geographically from the Canadian Prairies to Buena Park s Entertainment Corridor in Southern California and chronologically from early tourist narratives to contemporary environmental writing True West challenges many assumptions we make about western writing and opens the door to an important new chapter in western literary history and cultural criticism
