Decadent Style:

The Legend of the Decadents Gustave Leopold Van Roosbroeck, Joseph Warren Beach, 1927 **Landscapes of**
Decadence Alex Murray, 2016-12-01 The challenges posed by Decadence to Victorian moral conventions particularly sexual
have been well documented but this book makes the case for understanding Decadence as a response to the ways in which
place was accorded moral value in the period The book uses landscape as a key trope for exploring Decadent writing s
approach to location and identity Drawing on a wide range of fin de si cle literature organised around a series of locations
from Naples to New York Murray argues that Decadent writers developed a form of landscape and place based writing using
a series of stylistic features to challenge the increasing homogenisation of both place and literary culture Decadence and the
literature of the fin de si cle are re framed as a politically engaged form of landscape writing This is an ambitious and richly
researched study *The Fall of Love* John O'Loughlin, 2022-05-23 The six philosophical essays included here which vary in
length and treatment of style were written in the late 1970s by John O Loughlin and reflect a non Marxist concern with the
influence of environment upon culture not least in respect of literature music religion and knowledge generally Although the
author is not anti urban per se he argues that certain types or degrees of urban civilization can be detrimental to spirituality
including the life of the soul and THAT believe it or not was the basis of *The Fall of Love* which is closer in conception to
Spengler than to Marx and goes some way towards explaining the underlying causes of contemporary materialism as an
expression of secular values Decadence David Weir, 2018 Introduction Rome classical decadence Paris cultural

Excavations at Tiahuanaco Wendell Clark Bennett, 1934 Chopin James Huneker, 1900 *Lateness and Modern*
European Literature Ben Hutchinson, 2016-09-08 Modern European literature has traditionally been seen as a series of
attempts to assert successive styles of writing as new In this groundbreaking study Ben Hutchinson argues that literary
modernity can in fact be understood not as that which is new but as that which is late Exploring the ways in which European
literature repeatedly defines itself through a sense of senescence or epigonality Hutchinson shows that the shifting
manifestations of lateness since romanticism express modernity s continuing quest for legitimacy With reference to a wide
range of authors from Mary Shelley Chateaubriand and Immermann via Baudelaire Henry James and Nietzsche to Valery
Djuna Barnes and Adorno he combines close readings of canonical texts with historical and theoretical comparisons of
numerous national contexts Out of this broad comparative sweep emerges a taxonomy of lateness of the diverse ways in
which modern writers can be understood in the words of Nietzsche as creatures facing backwards Ambitious and original
Lateness and Modern European Literature offers a significant new model for understanding literary modernity The Dial
