Dedalus Of Absinthe

Michael Richardson

Dedalus Of Absinthe:

The Dedalus Book of Absinthe Phil Baker,2001 Au secours C est Fleurette la mouffette fant me crie Cl o pour faire une blague ses amis Mais lorsqu elle a vraiment besoin de leur aide ils ne la croient plus *The Dedalus Book of Absinthe* Phil Baker,2018-02-15

The Dedalus Book of Absinthe Phil Baker,2005-12 This work traces absinthe s cultural origins as a herbal tonic through its morbid heyday in the late 19th century and the Absinthe Murders in 1905 After giving the pharmacology of absinthe the book deals with the modus operandi of drinking it

The Hour of Absinthe Nina S. Studer,2024-10-15 At the height of its popularity in the late nineteenth century absinthe reigned in the bars caf s and restaurants of France and its colonial empire Yet by the time it was banned in 1915 the famous green fairy had become the green peril feared for its connection with declining birth rates and its apparent capacity to induce degeneration madness and murderous rage in its consumers As one of history s most notorious drinks absinthe has been the subject of myth scandal and controversy The Hour of Absinthe explores how this mythologizing led to the creation and fabrication of a vast modern folklore while key historical events crucial to understanding the story of absinthe have been neglected or unreported

Mystique and moralizing both arose from the spirit s relationship with empire Some claim that French soldiers were given daily absinthe rations during France s military conquest of Algeria to protect them against heat diseases and contaminated water In fact the overenthusiastic adoption of the drink by these soldiers and subsequently by French settlers was perceived as a threat to France s colonial ambitions an anxiety that migrated into French medicine Providing keen insight into how local cultural narratives about absinthe shaped what quickly became a global reputation Nina Studer provides a panoptic view of the French Empire s influence on absinthe s spectacular fall from grace

The Dedalus Book of English Decadence James Willsher,2004 The 1890s English Decadence was no mere polite response to French invention but the hothouse blossoming of long indigenous researches into the perverse Like Imperial Rome England could hardly subdue and rule the globe without becoming corrupt The Romantics tried rebellion but amidst Victorian industry terminally fatigued Decadents concerned themselves with cultivating their addiction to luxury and sensation In *The Dedalus Book of English Decadence* Vile Emperors and Elegant Degenerates avatars and acolytes such as Beckford Byron De Quincey Dowson Bosie and Wilde are all to be found at their unwholesome best

Alcohol Flows Across Cultures Waltraud Ernst,2020-03-03 This book maps changing patterns of drinking Emphasis is laid on the connected histories of different regions and populations across the globe regarding consumption patterns government policies economics and representations of alcohol and drinking Its transnational perspective facilitates an understanding of the local and global factors that have had a bearing on alcohol consumption and legislation especially on the emergence of particular styles of drinking cultures The comparative approach helps to identify similarities differences and crossovers between particular regions and pinpoint the parameters that shape alcohol consumption policies legal and illegal production and popular perceptions With a wide geographic range

the book explores plural drinking cultures within any one region their association with specific social groups and their continuities and changes in the wake of wider global colonial and postcolonial economic political and social constraints and exchanges

The Book of Absinthe Phil Baker, 2007-12-01 A witty erudite primer to the world's most notorious drink La F e Verte or The Green Fairy has intoxicated artists poets and writers ever since the late eighteenth century Stories abound of absinthe's drug like sensations of mood lift and inspiration due to the presence of wormwood its infamous special ingredient which ultimately leads to delirium homicidal mania and death Opening with the sensational 1905 Absinthe Murders Phil Baker offers a cultural history of absinthe from its modest origins as an herbal tonic through its luxuriantly morbid heyday in the late nineteenth century Chronicling a fascinatingly lurid cast of historical characters who often died young the absinthe scrapbook includes Paul Verlaine Arthur Rimbaud Charles Baudelaire Oscar Wilde Ernest Dowson Aleister Crowley Arthur Machen August Strindberg Alfred Jarry Vincent van Gogh Henri de Toulouse Lautrec Alphonse Allais Ernest Hemingway and Pablo Picasso Along with discussing the rituals and modus operandi of absinthe drinking Baker reveals the recently discovered pharmacology of how real absinthe actually works on the nervous system and he tests the various real and fake absinthe products that are available overseas Formidably researched beautifully written and abundant with telling detail and pitch black humor *The Daily Telegraph*

Goddesses, Elixirs, and Witches J. Riddle, 2010-02-15 From the earliest times the medicinal properties of certain herbs were connected with deities particularly goddesses Only now with modern scientific research can we begin to understand the basis and rationality that these divine connections had and being preserved in myths and religious stories they continued to have a significant impact through the present day Riddle argues that the pomegranate mandrake artemisia and chaste tree plants substantially altered the development of medicine and fertility treatments The herbs once sacred to Inanna Aphrodite Demeter Artemis and Hermes eventually came to be associated with darker forces representing the instruments of demons and witches Riddle's ground breaking work highlights the important medicinal history that was lost and argues for its rightful place as one of the predecessors

Whistler's Legacy Daniel E. Sutherland, 2026-05-05 Few artists were as determined to shape their own legacy as James Abbott McNeill Whistler Fiercely protective of his reputation he denounced would be biographers published *The Gentle Art of Making Enemies* as his own autobiography and destroyed works he thought unworthy of his genius declaring more than once that to destroy is to survive Yet despite his efforts at control Whistler's legacy has proved as unpredictable and contentious as the man himself In this engagingly written book Daniel E Sutherland traces the turbulent fortunes of Whistler's reputation since his death in 1903 He examines the friends relatives and acquaintances who first shaped the story of Whistler's life and art and shows how three defining issues the cultivated image of the dandy his reputation for quarrelsomeness and the origins of the nocturnes came to dominate critical debates Along the way Sutherland challenges entrenched assumptions by questioning and often correcting the reasons behind Whistler's controversial standing He also demonstrates how these narratives have evolved

through successive generations of critics curators and scholars while seeping into popular culture as well Offering the first sustained study of Whistler s contested posthumous reputation this book makes a significant contribution to the field of nineteenth century art and biography It will appeal to art historians museum professionals and scholars of modernism as well as any admirers of Whistler eager to understand how and why he remains such a polarizing figure today **The Routledge Handbook of Literature and Space** Robert Tally Jr.,2017-01-06 The spatial turn in literary studies is transforming the way we think of the field The Routledge Handbook of Literature and Space maps the key areas of spatiality within literary studies offering a comprehensive overview but also pointing towards new and exciting directions of study The interdisciplinary and global approach provides a thorough introduction and includes thirty two essays on topics such as Spatial theory and practice Critical methodologies Work sites Cities and the geography of urban experience Maps territories readings The contributors to this volume demonstrate how a variety of romantic realist modernist and postmodernist narratives represent the changing social spaces of their world and of our own world system today *The Dedalus Book of Literary Suicides* Gary Lachman,2008 Writers have been killing themselves for centuries From Petronius in ancient Rome to the 20th Century Japanese novelist Yukio Mishima writers more than any other kind of artist have taken their own lives in an extraordinary number of ways With bullets poison drugs and swords poets playwrights novelists and philosophers have sent themselves off into the big sleep Others one step shy of that last exit have made great literature about the urge to self destruction For the first time Gary Lachman investigates the many links between self death and the written word bringing together an unusual gallery of literary greats and a host of other fatal characters Typically for Dedalus the covers gorgeous Sasha Selavie in QX International Dead Letters ultimately proves to be at once stimulating and thought provoking and the section devoted to various suicidal writings is most diverting Peter Burton in One80 Reviews *The Dedalus Book of Surrealism: The myth of the world* Michael Richardson,1993 Collection of surrealist stories by authors from seventeen different countries

Sensational Joyce John Gordon,2025-07-01 Exploring how Ulysses imitates the human mind at work connecting close readings to psychological theories of Joyce s time In this book John Gordon uses historically oriented close readings to demonstrate that Ulysses is a book that mimics the workings of the human mind Gordon highlights James Joyce s exceptional ability to capture and represent lived experiences showing how Joyce s writings display the ways specific minds interact with their environments Ulysses is portrayed here as having its own evolving consciousness Sensational Joyce is the first book on Joyce s psychology to engage deeply with theorists beyond Freud Jung or Lacan Gordon explains how Joyce used other psychological theories like William James s ideas on stimulus and response Gestalt psychology John Watson s behaviorism and trauma research The book also includes discussions of phenomena considered experimental at the time such as telepathy telekinesis precognition and spiritualism Gordon examines the characters of sensitive intellectual Stephen Dedalus and advertising professional Leopold Bloom following the book s centers of consciousness into the visionary hallucinatory and

prophetic final chapters Gordon highlights how Joyce's unique writing style transforms sensations and stimuli into thoughts and responses As Ulysses progresses the sensational meaning sensory data becomes sensationalistic In tracing the contemporary theories of psychology evidenced in the novel Sensational Joyce presents many new and original interpretations that can be applied to other works by Joyce especially Finnegans Wake A volume in the Florida James Joyce Series edited by Sam Slote **New Scientist**, 2002 **The Literary Review**, 2002 **The Dedalus Book of German Decadence** Raymond Furness, 1994 The Dedalus Book of Surrealism: The identity of things Michael Richardson, 1993 Collection of surrealist stories by authors from seventeen different countries *The Staff Room* Markus Orths, 2008 A grotesque absurd satire which is also extremely funny Kranich is a newly qualified teacher about to take up his first job After he arrives at the school he is plunged into a Kafkaesque environment which has all the worst features of a totalitarian state The four pillars of the school system as the headmaster explains on Kranich's very first day there are fear misery pretense and lies Very soon he finds himself caught between the Education Authority Police Secret Security Officers and the CG the Conspiracy Group that aims to undermine the school system but only verbally since no one would actually want to put their own job at risk *The Dedalus Book of Portuguese Fantasy* Eugénio Lisboa, Helder Macedo, 1995 This fourth volume in the Dedalus European Fantasy series offers a rich feast of bewitched houses roads that lead nowhere hanged men who descend from the scaffold in order to help the living churches buried beneath the sea and cannibalism In addition to the well known masters Eca de Queiroz and Mario de SaCarneiro contributors include Jose Rodrigues Migueis Domingo Monteiro Failho de Almeida Jose Regio David Mourao Ferreira Alvaro do Carvalhal Ferreira de Castro and Almada Negreiros most appearing for the first time in English translation Decadent London Antony Clayton, 2005 Antony Clayton recreates the artistic and social milieu of the turbulent period around the end of the 19th century and provides concise biographical material on the central characters such as Wilde Symons Beardsley Whistler Dowson Frank Harris and other less well known people such as Count Stenbock and John Gray It was a period of immense upheaval and change in all of the arts The author surveys the work produced the favourite dining places the public reaction and also the decadent life of London outside the artistic arena that co existed at a time when the constraints and certainties of the Victorian period were crumbling Decadence was indeed subversive Publisher

Decoding **Dedalus Of Absinthe**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
