Criticism in Society Imre Salusinszky, 2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study Literary criticism if it is a discipline is surely that discipline which has been most exclusively concerned with the question of its own function The main subject within criticism seems always to have been The Function of Criticism Featuring nine authors the early history of these essays is the attempt to separate criticism off from the art that it deals with generally with unhappy consequences for criticism

Phaedrus Plato, 1998 Phaedrus is widely recognized as one of Plato's most profound and beautiful works It takes the form of a dialogue between Socrates and Phaedrus and its ostensible subject is love especially homoerotic love Socrates reveals it to be a kind of divine madness that can allow our souls to grow wings and soar to their greatest heights Then the conversation changes direction and turns to a discussion of rhetoric which must be based on truth passionately sought thus allying it to philosophy The dialogue closes by denigrating the value of the written word in any context compared to the living teaching of a Socratic philosopher The shifts of topic and register have given rise to doubts about the unity of the dialogue doubts which are addressed in the introduction to this volume Full explanatory notes also elucidate issues throughout the dialogue that might puzzle a modern reader Jacket

Late Republican Rome, 88-31 BC Federico Santangelo, John Murrell, 2023-07-20 A sourcebook on Late Republican Rome 88-31 BC with a range of translated primary texts to support ancient history students

Mervelous Signals Eugene Vance, 1989-01-01 The investigation of language of how and what and why signifiers signify is prominent in modern critical work but the questions being asked are by no means new In Mervelous Signals Eugene Vance asserts that there is scarcely a term practice or concept in contemporary theory that does not have some rich antecedent in medieval thought He goes on to illustrate the complexity and depth of medieval speculations about language and literature Vance's study of the link between the poetics and semiotics of the Middle Ages takes both a critical and a historical view as he brings today's insights to bear on the contemporary perspectives of such works as St Augustine's Confessions the Chanson de Roland Chr tien's Yvain Aucassin and Nicolette Spenser's The Faerie Queen and certain aspects of the works of Dante and Chaucer and of French medieval theater

Gorgias Plato, 1998 Nichols's attention to dramatic detail brings the dialogue to life Plato's striking

variety in conversational address names and various terms of relative warmth and coolness is carefully reproduced as is alteration in tone and implication even in the short responses

The last great work of the age of reason the final instance when all human knowledge could be presented with a single point of view Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics Despite its occasional ugliness the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes It is especially strong in its biographical entries These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians scholars
