Aspects Of Anglosaxon Magic:

Aspects of Anglo-Saxon Magic Bill Griffiths,1996 Magic is something unauthorised an alternative perhaps even a deliberate cultivation of dark evil powers But for the Anglo Saxon age the neat division between mainstream and occult rational and superstitious Christian and pagan is not always easy to discern To maintain its authority the church drew a formal line and outlawed a number of dubious practices such as divination spells and folk healing while at the same time conducting very similar rituals itself It would seem that there was a convergence of the two cultures native and Christian and this may effect the tendency to view pagan gods as near omnipotent beings

Aspects of Anglo-Saxon Magic Bill Griffiths,2003 With the arrival of Christianity in England there was a convergence of the new religion with the old Many of the heathen customs superstitions and festivals were adopted to the needs of the Church which sought where it could to preserve continuity with the past Communities came together to celebrate seasonal festivals in much the same way as before but the meaning of the events and customs was given a Christian gloss So while many heathen practices were outlawed others were absorbed into Christian tradition and preserved Thus Yuletide Easter and harvest festivals are still with us

Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket

Anglo-Saxon Magic Godfrid Storms, 1948 Developing Magical Consciousness Susan Greenwood, 2019-09-30 Offering a new template for future exploration Susan Greenwood examines and develops the notion that the experience of magic is a panhuman orientation of consciousness a form of knowledge largely marginalized in Western societies In this volume she aims to form a bridge of communication between indigenous magical or shamanic worldviews and rationalized Western cultures She outlines an alternative mythological framework for the latter to help develop a magical perception as well as giving practical case studies derived from her own research The form of magic discussed here is not fantastic or virtual but ecological and sensory Magical knowledge infiltrates the body in its deepest levels of the subconscious and unconscious as well as conscious awareness it is felt and understood through the connection with an inspirited world that includes the consciousness of other beings including those of plant animal and the physical environment This is anthropology from the heart rather than the head and it engages with the messy area of emotions an embodiment of the senses and struggles to find a common language of listening to one another across a void of differences The aim is to provide a non reductive structure for the creative interplay of both magical and analytical modes of thought Passion is a motivator for change and a change in attitude to magic as an integrative force of human understanding is the main thread of this work JEGP, Journal of English and Germanic Philology Gustaf E.
