Planning, Environmental Review and Consumer Analysis,1976 James B. Conant: Harvard to Hiroshima and the Making of the Nuclear Age James Hershberg,2019-07-31 James B Conant 1893 1978 was one of the titans of mid 20th century American history attaining prominence and power in multiple fields Usually remembered as an educational leader he was president of Harvard University for two tumultuous decades from the Depression to World War II to the Cold War and McCarthyism To take that job he gave up a scientific career as one of the country s top chemists and he left it twenty years later to become Eisenhower s top diplomat in postwar Germany Hershberg s prize winning study however examines a critical aspect of Conant s life that was long obscured by government secrecy his pivotal role in the birth of the nuclear age During World War II as an advisor to Roosevelt and then Truman on the elite Interim Committee that considered how to employ the bomb against Japan Conant was intimately involved in the decisions to build and use the atomic bomb During and after the Manhattan Project he also led efforts to prevent a postwar nuclear arms race between the United States and the Soviet Union that he feared threatened the survival of civilization an apocalyptic prospect he glimpsed in the first instant of the new age when he witnessed the first test of the new weapon at Alamogordo on July 16 1945 a vivid inquiry a model of historiography evocative reading Conant was central to atomic policy and progress the bomb would be as much Conant s as it was anyone s in Government His inner response to that burden responsibility has long been obscured but it is illumined here Philip Morrison The New York Times Book Review In his splendid portrait of Conant James Hershberg has illuminated the life of a pivotal figure in the making of U S nuclear scientific educational and foreign policy for almost a half century But the book is much more It is not only an insightful narration of Conant s life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new Hershberg s superb study is a chronicle of Conant s moral journey and we are the wiser for his having charted Conant s path S S Schweber Washington Post Book World James G Hershberg ably comes to grips with Conant and his hazardous times His book is vibrantly written and compelling and it breaches Conant s shield of public discretion in masterly fashion making extensive use of unpublished interviews diaries reports and correspondence pried from private and governmental repositories It is a huge ambitious work a history of the Cold War as Conant encountered it as well as a study of the man Daniel J Kevles The New Yorker a well written comprehensive nonjudgmental but sensitive biography Conant was involved in so many and such critical events that students of almost any aspect of our public life over the past half century will find useful the new material and helpful insights in this book This fine biography of one of the most important and complicated of America s twentieth century leaders immediately establishes James Hershberg as one of America s outstanding young historians Stephen E Ambrose Foreign Affairs magnificent Any reader interested in nuclear weapons Cold War history or American politics from FDR to JFK will find this biography riveting Priscilla McMillan Chicago Tribune masterful The prose is clear the narrative forceful and the author s judgments are balanced and judicious This is simply splendid biography The highest praise one can give for a book of this

sort is that the historian has not shrunk from speaking truth to power. This book quietly but insistently does so. It should be read by the public at large as one of the definitive texts on the cold war and the nuclear age. Hershberg's triumph is that he has prevailed over all the official lies to give us one more layer of the historical truth. Kai Bird *The Nation* riveting and impressive achievement, honest and comprehensive in its scholarship, the author has shown himself to be a historian of notable achievement and promise. McGeorge Bundy *Nature* Hershberg's outstanding, balanced biography lifts the self-imposed secrecy surrounding a key architect of U.S. Cold War policy and of the nuclear age. *Publisher's Weekly* an impressive and substantial achievement. Hershberg has used the life of one strategically placed individual to illuminate the most important issues surrounding America's role and conduct in the nuclear age. His book will be invaluable to scholars assessing the impact and legacy of the group who acquired the epithet "wise men" now that the Cold War has receded. Carol S. Gruber *Science* definitive, a far more textured picture than one finds in Conant's own guarded and unrevealing autobiography, an important and rewarding book illuminating Conant's life in remarkable and eventful times. James Hershberg has explored that life and those times in exhaustive and revealing detail. Paul Boyer *The New Republic* James G. Hershberg has achieved the impossible. He has written a huge biography of a Harvard president that is fascinating, informative, and as valuable a piece of American history as anything I have read in years. Mr. Hershberg has brought us back vividly to an age that seems remote so long ago, but the questions about nuclear proliferation are the same, even while the answers are still ambiguous. As we watch men struggling with unanticipated post-Cold War problems and civil wars sprouting like Jason's men at arms, it is good to read this story about a complex man who deserves an important place in our history because he helped make that history possible. Arnold Beichman *The Washington Times* engrossing, a magisterial study of an awesome and intriguing public career. *Kirkus Reviews* entertaining, thought-provocative. Dick Teresi *The Wall Street Journal* Hershberg's book helps us more clearly understand the postwar Establishment and offers a challenging appraisal of the role of elites of universities and of the state. Gar Alperovitz *In These Times* Hershberg deserves great credit for cracking a tough New England walnut, analyzing this very important public figure, demonstrating how he fit into his own time, and showing us what we can learn from the man. Daniel R. Mortensen *The Friday Review of Defense Literature* a compelling account, an engaging examination of one of the central figures of the nuclear age. It succeeds in showing one man's intersection with great events and issues and, in the process, illuminates those issues for us all. *American Historical Review* well-written. Conant's participation in one of our country's most dynamic periods is, thanks to Hershberg, now much better understood. *Library Journal* A reader of the book will enter the realm of the greats, the shapers of worlds created by the atomic blasts at Hiroshima and Nagasaki. Conant was no bit player in Cold War history; the book is very successful in weaving Conant's subsurface persona in with his ups and downs as a prominent and committed public figure. And it leaves out little detail in describing top-level decisions involving the Cold War geopolitics of nuclear weaponry. Conant was a participant in most of

these decisions with Presidents Roosevelt and Truman themselves their Secretaries of War and State and of course all the major scientific figures of the time Chemical Engineering News A wonderfully rich portrait that emerges from a carefully documented account of Conant s role in the development of the atomic bomb and post war nuclear policy An extraordinarily well written text Hershberg lays bare the person behind the persona warts dimples and all Stanley Goldberg Bulletin of the Atomic Scientists **Future Survey Annual** ,1986 **The Nuclear Age** William Sweet,1988 **The Cumulative Book Index** ,1986 A world list of books in the English language Challenges for U.S. National Security: Assessing the balance: defense spending and conventional forces ,1981 **Energy Research Abstracts** ,1977 Semiannual with semiannual and annual indexes References to all scientific and technical literature coming from DOE its laboratories energy centers and contractors Includes all works deriving from DOE other related government sponsored information and foreign nonnuclear information Arranged under 39 categories e g Biomedical sciences basic studies Biomedical sciences applied studies Health and safety and Fusion energy Entry gives bibliographical information and abstract Corporate author subject report number indexes *New Scientist* ,1969 **International Journal of Risk Assessment and Management** ,2001
