Assessing Woman Battering In Mental Health Services:

Assessing Woman Battering in Mental Health Services Edward W. Gondolf, 1998 This guide to the conceptual and practical issues associated with identifying and assessing battered women in mental health services challenges traditional mental health approaches to domestic violence The author offers alternative strategies and procedures to improve the response to battered women drawing on research from mental health assessment his own surveys of battered women s services and the expertise of battered women advocates Topics covered include how to establish a supportive environment that enhances disclosure of woman battering procedures to avoid misdiagnosis assessing women of different racial background and assessing men who batter Innovations in Feminist Psychological Research Ellen B. Kimmel, 1999 What are the best ways to do research on the psychology of women and gender Within feminist psychology there is a great deal of methodological creativity and diversity This volume highlights how familiar methods such as focus groups can be brought to bear on feminist issues It demonstrates less common methods such as Q sort phenomenological analysis concept mapping and discourse analysis Moreover it explores the role of personal values interpersonal dynamics and sociopolitical influences on the research process Over 60 international contributors share insights into adolescent girls and adult women s sexuality violence and its prevention life patterns and narratives the teaching research nexus gender and race in clinical practice and more Included is a comprehensive resource guide for research publication and teaching on methodological diversity

Psychological Aspects of Women's Health Care Nada L. Stotland, Donna E. Stewart, 2008-11-01 In the decade since the first edition of this work was published an incredible array of reproductive technologies and associated issues has emerged Obstetricians and gynecologists are hard pressed to deal with the startling breadth and depth of these issues which require mastery over a daunting combination of ever increasing scientific knowledge technical skills long hours legal liability and exposure to clinical situations of overwhelming emotional intensity Psychiatrists have a vital role to play in helping obstetricians and gynecologists cope with a host of problems whose resolutions require not just technical skill but also knowledge of biology psychology sociology anthropology ethics and law For example to design and implement strategies to reduce the transmission of HIV psychiatrists could work with public health workers to incorporate the psychology sociology and anthropology of female reproductive behavior Psychiatrists could likewise improve the diagnosis and treatment of breast and pelvic malignancies by elucidating the factors that deter women from self examination and regular medical screening and enhance treatment compliance Divided into three sections this clinical and theoretical sourcebook addresses every major area of contemporary concern Pregnancy covers topics from the psychology of normal gestation to physical and psychiatric complications during and after pregnancy including new prenatal diagnostic techniques and the dynamic issues that emerge when abnormalities are detected and the use of psychotropic drugs and electroconvulsive therapy in pregnant and lactating patients Gynecology discusses not only common gynecologic problems but also more controversial issues such as induced

abortion and the new reproductive technologies including the role of the menstrual cycle in exacerbating and precipitating psychologic symptoms the psychiatric aspects of menopause the assessment and management of chronic pelvic pain the psychosocial concomitants of gynecologic malignancies and the emotional demands on the oncology team and the special implications of HIV AIDS General Issues offers a broad balanced view of topics rarely found in the literature such as men s reactions to women s reproductive events substance abuse and eating disorders sexual and physical abuse often part of the histories of patients with personality disorders and posttraumatic stress disorders ethical and legal issues and health care for lesbian patients Of special significance is Dr Stotland s chapter on how consultation liaison services are provided to obstetrics and gynecology services This practical and scholarly volume is exceptionally useful as a teaching reference for medical and other health care students and residents in psychiatry and obstetrics and gynecology It also provides a valuable resource for the clinician working to improve the psychological well being of women patients Stopping Domestic Violence Pamela J. Jenkins, Barbara Parmer Davidson, 2012-12-06 In the field of domestic violence community collaboration has been an essential part of both prevention and intervention However there have been vast differences in perspective methodology understanding interpretations and concerns among the various partners This volume examines models of collaboration between personnel in social service agencies women s centers domestic violence programs medical and mental health settings and law enforcement Techniques are detailed that allow knowledge about domestic violence and primary prevention to be integrated into a community response by all those involved Further the authors describe in detail how the possibilities for communities to respond to domestic violence victims is based on how these various groups perceive the victim how an individual agency personally responds and how it is possible to provide safety for women in their own homes and communities Stopping Domestic Violence How a Community Can Prevent Spousal Abuse is an excellent resource for educators social workers public health professionals clinicians medical and mental health professionals and law enforcement personnel Institutional Abuse Jill Manthorpe, Bridget Penhale, Nicky Stanley, 2002-09-11 Nothing available that directly competes The extent of institutional abuse tends to be played down it is still something of a taboo subject Material on abuse of adults in mental health settings has been a relatively neglected field **Handbook of Violence Risk Assessment** Randy K. Otto, Kevin S. Douglas, 2011-04-27 This comprehensive Handbook of original chapters serves as a resource for clinicians and researchers alike Two introductory chapters cover general issues in violence risk assessment while the remainder of the book offers a comprehensive discussion of specific risk assessment measures Forensic psychology practitioners mental health professionals who deal with the criminal justice system and legal professionals working with violent offenders will find the Handbook of Violence Risk Assessment to be the primary reference for the field *Canadian Journal of Community Mental Health*, 1998 Evaluating Services for Survivors of Domestic Violence and Sexual Assault Stephanie Riger, 2002-08-12 Evaluating Services for Survivors of Domestic Violence and Sexual Assault is the indispensable How To book on setting up a

successful evaluation program It is the first book to look at evaluation in the context of big picture issues such as the push for social change and shifts in public consciousness around violence against women and the broader issues of gender inequality In addition to being a key resource for both service providers and evaluators Evaluating Services for Survivors of Domestic Violence and Sexual Assault also serves the needs of funding agencies and policy makers providing them with historical data and fact by fact research results that support informed decisions
