Astrological Aspects Your Inner Dialogue:

Astrological Aspects Jeanne Avery, 2004-12 Aspects are the mathematical relationships between planets in an individual's astrological chart. They are key factors in the study of astrology for it is the interpretation of the relationship of one planet to another that explains human behavior. If we think of each planet as representing a quality of energy or a voice within, then two planets relating to each other would describe a conversation. All ten considered together could be likened to a committee meeting. The relationships of all those planets to each other characterizes the effectiveness of that group meeting or the quality of dialogue going on within us. Some people have simple and harmonious inner dialogues while other people have a riot going on inside. Astrological Aspects allows readers to make sense of the riot and through examples of aspects in the charts of well-known people shows us how different individuals manage or mismanage both conflicting and complementary energies and by extension how we can do the same. *Astrological Aspects* Jeanne Avery, 1995

Astrology and Your Health Avery, Jeanne, 2016-05-01 Hippocrates said A physician cannot safely administer medicine if he is unacquainted with astrology. In *Astrology and Your Health* Jeanne Avery picks up where Hippocrates left off in this lively practical and state-of-the-art guide to the health secrets hidden in the horoscope. Avery covers the zodiac and its physical counterparts, how different zodiacal signs can manage their health and how one's horoscope can hint at health issues before they surface.

Knowledge of Predictive Techniques of Nadi Astrology Ram Babu Sao, This book *Knowledge of Predictive Techniques of Nadi Astrology* is a powerful tool for gaining profound knowledge about the Event Prediction of a person born with a unique set of psychological tendencies and life potentials. The horoscope shows us what we are presently working with based on our past actions and thoughts. Besides providing deep insight into the past and present, in the realm of Vedic Astrology much has been said about planetary influences, dasha systems, house significations, and nakshatra-based interpretations. But there lies a hidden terrain, often overlooked yet profoundly potent: the idea that every planet casts not only its influence but also a psychological reflection upon the native. These reflections are not mere metaphors; they are real impressions on the mind, often functioning as shadows, archetypes, or inner voices that shape how an individual perceives reality, makes choices, and lives out their karma. In this article, we shall dive into this esoteric junction between Jyotish and psychology, especially focusing on what can be called the Pratibimb Gyaan: Knowledge of Planetary Reflections. This approach fuses traditional astrological principles with a psychological lens, drawing upon deeper truths embedded in ancient texts and supported by experiential insights. Understanding the Concept of Planetary Reflections: what do we mean by planetary reflections? Each graha (planet) is not just a karaka (significator) of certain events but also a bearer of certain psychological tendencies. These tendencies, when unacknowledged, can operate from the unconscious, manifesting as compulsions, projections, fears, or irrational desires. In simpler terms, we carry within us the inner Mars, the inner Moon, the inner Rahu, and so on. These inner grahas behave like psychological sub-personalities, often conflicting with one another or aligning based on planetary

relationships in the natal chart For instance when a person has a strong Mars aspecting Moon there is a potential for inner aggression or restlessness to dominate emotional peace But this doesn't just play out externally it creates an inner battlefield The Moon symbolizing the emotional mind manas reflects the agitation of Mars like water disturbed by fire These reflections become psychological patterns Mars reflects as the warrior the drive the impulse to dominate or fight Saturn reflects as fear control restriction and also deep rooted endurance

Hindu Predictive Techniques of Nadi Astrology-II Ram Babu Sao,2025-11-21 This book Hindu Predictive Techniques of Nadi Astrology II is a powerful tool for gaining profound knowledge about the Event Prediction of a person born with a unique set of psychological tendencies and life potentials The horoscope shows us what we are presently working with based on our past actions and thoughts Besides providing deep insight into the past and present In the realm of Vedic Astrology much has been said about planetary influences dasha systems house significations and nakshatra based interpretations But there lays a hidden terrain often overlooked yet profoundly potent the idea that every planet casts not only its influence but also a psychological reflection upon the native These reflections are not mere metaphors they are real impressions on the mind often functioning as shadows archetypes or inner voices that shape how an individual perceives reality makes choices and lives out their karma In this article we shall dive into this esoteric junction between Jyotish and psychology especially focusing on what can be called the Pratibimb Gyaan Knowledge of Planetary Reflections This approach fuses traditional astrological principles with a psychological lens drawing upon deeper truths embedded in ancient texts and supported by experiential insights Understanding the Concept of Planetary Reflections what do we mean by planetary reflections Each graha planet is not just a karaka significator of certain events but also a bearer of certain psychological tendencies These tendencies when unacknowledged can operate from the unconscious manifesting as compulsions projections fears or irrational desires In simpler terms we carry within us the inner Mars the inner Moon the inner Rahu and so on These inner grahas behave like psychological sub personalities often conflicting with one another or aligning based on planetary relationships in the natal chart For instance when a person has a strong Mars aspecting Moon there is a potential for inner aggression or restlessness to dominate emotional peace But this doesn't just play out externally it creates an inner battlefield The Moon symbolizing the emotional mind manas reflects the agitation of Mars like water disturbed by fire These reflections become psychological patterns Mars reflects as the warrior the drive the impulse to dominate or fight Saturn reflects as fear control restriction and also deep rooted endurance Rahu reflects as obsession illusion and amplified desire Jupiter reflects as belief systems values hope and inner guru Venus reflects as yearning pleasure and inner aesthetics Thus Jyotish becomes not just predictive but transformative when used to recognize and integrate these reflections The Archetypal Language of Planets Bridging Jungian Psychology and Jyotish
