Astrological Symbolism:

The Nature of Astrology Bruce Scofield, 2023-01-03 An in depth examination of how astrology is a form of systems science Shares modern biological studies offering evidence that our solar system neighbors profoundly affect and shape life on our planet Explores the early practice of astrometeorology revealing the links between the solar system weather and climate over large spans of time Looks at the history philosophy and methodologies of astrology as well as its potential future applications in medicine and the social sciences Our ancient ancestors recorded the rhythms of the Sun Moon planets and stars correlating these rhythms with weather plant growth and animal and human behaviors From these early geocosmic recordings were born calendars astronomy and astrology While astrology is now mostly viewed as subjective fortune telling Bruce Scofield argues that astrology is not only a practice but also a science specifically a form of systems science a set of techniques for mapping and analyzing self organizing systems Providing clear evidence that our solar system neighbors profoundly affect and shape life on our planet Scofield shares modern biological and climatological studies on the effects of Earth s rotation the Sun the Moon and the rhythms of light gravity magnetism and solar radiation on terrestrial processes He explores the early practice of astrometeorology a method of weather forecasting used from ancient times into the Renaissance revealing the links between the solar system weather and climate over large spans of time He shares his own studies on the correlations between Saturn s position and terrestrial weather as well as presenting a wealth of evidence on astrological effects and the theories and mechanics behind them Examining the history of astrology he looks at its earliest foundations in Mesopotamia and its development by the classical Greeks into a mathematically informed body of knowledge He explores the decline and marginalization of astrology during the Scientific Revolution of the Renaissance and the Enlightenment when astrology was transformed from a credible science to a controversial practice after being attacked by the Church and then abandoned by experimental scientists Presenting a broad look at how the cosmic environment shapes nature the author shows how the practice and natural science of astrology can expand its applications in modern society in such varied fields as medicine history and sociology

Jung on Astrology C. G. Jung, 2017-09-05 Jung on Astrology brings together C G Jung s thoughts on astrology in a single volume for the first time significantly adding to our understanding of Jung s work Jung s Collected Works seminars and letters contain numerous discussions of this ancient divinatory system and Jung himself used astrological horoscopes as a diagnostic tool in his analytic practice Understood in terms of his own psychology as a symbolic representation of the archetypes of the collective unconscious Jung found in astrology a wealth of spiritual and psychological meaning and suggested it represents the sum of all the psychological knowledge of antiquity The selections and editorial introductions by Safron Rossi and Keiron Le Grice address topics that were of critical importance to Jung such as the archetypal symbolism in astrology the precession of the equinoxes and astrological ages astrology as a form of synchronicity and acausal correspondence the qualitative nature of time and the experience of astrological fate allowing

readers to assess astrology's place within the larger corpus of Jung's work and its value as a source of symbolic meaning for our time. The book will be of great interest to analytical psychologists, Jungian psychotherapists and academics and students of depth psychology, Jungian and post-Jungian studies as well as to astrologers and therapists of other orientations especially transpersonal.

The Secret Zodiac Fred Gettings, 2025-12-01 In the Florentine basilica of San Miniato al Monte is a thirteenth century marble zodiac. Over many years Fred Gettings unravelled the mysteries of its construction. In this book originally published in 1987 he shows that the church was designed according to an extraordinarily significant astrological schema and embodies the mediaeval Church's desire to refute an influential contemporary prophecy of the coming of the Anti-Christ. The Secret Zodiac shows how all the occult devices of the mediaeval artist are employed in San Miniato from a ray of light which falls twice a year upon a particular symbol to a message concealed in code in a Latin inscription set near to the zodiac itself. The author uncovers and explains the importance of all these arcane symbols and relates each to the general and occult philosophy of the time. He concludes that San Miniato is probably the last surviving church to have been designed by initiates with a profound and explicit knowledge of astrology and hermetic lore. The book will be of interest to art historians, occultists, hereticists and mediaeval historians.

Myths & Symbols of Vedic Astrology Bepin Behari, 2004-01-05 Vedic Astrology has a wealth of myths and symbols some in common with Western Astrology. Many of the secrets of life and consciousness can be discovered through them. Students of mythology will also find it helpful in unlocking the astrological keys to the great archetypes of the psyche. This book also explores the Nakshatras, the 27 lunar mansions, a unique aspect of the Vedic system of astrology.

Horoscope Symbols Robert Hand, 1981 An examination of the fundamental principles of astrology discusses the meanings of the various signs of the zodiac and the influence of the planets on human life.

Horary Astrology: Plain and Simple Anthony Louis, 1998 Here is the best how to guide for the intermediate astrologer on the art of astrological divination. Horary astrology is the best method for getting answers to questions of pressing personal concern. Will I ever have children? Should I buy that lakefront property? What happened to my car keys? When used wisely horary acts like a trusted advisor to whom you can turn in times of trouble.
