Astrology A Sun Guide:

The Complete Sun Sign Guide Bernard Fitzwalter, 1988 The Zodiac Guide to Love and Money Alina Rubi, This book reveals the zodiac's most fascinating secrets in two of the areas that move us most: love and money. Through a practical, deep, and sometimes funny astrological look, you will discover how each sign manages their finances, what motivates them economically, and how they relate to abundance. In addition, you will understand their affective patterns, their fears as a couple, their way of loving, and what they look for in a relationship. Ideal for those who want to know themselves better, make more conscious decisions, or simply understand why that Aries spends without thinking or why that Virgo doesn't fall in love without a savings plan. A cosmic journey into the hearts and pockets of the twelve signs. *Sun Sign Secrets* Zerner, Amy, Farber, Monte, 2014-05-01 The bestselling husband and wife team, artist Amy Zerner and author Monte Farber, bring fresh revelations and original psychological perceptions about each astrological sun sign in this beautifully illustrated guide. Their easy-to-understand descriptions of the distinctive attributes of the twelve zodiac signs will provide clear, penetrating, and useful insights into your personality and those you care about. Farber offers an ancient history of astrology and its uses, setting the stage for an in-depth description of each sign. This book is packed with practical, compelling, and incisive information, including: Positive Traits, Negative Traits, Likes, Dislikes, Secret Life, Attitudes Towards Money, Occupations, Leisure Interests, Romantic Pairings, Love Life, Behaviors, Abilities at Work and at Home, Personalities of Children, Parenting a Sun Sign. *Astrology* Roger B. Culver, Philip A. Ianna, 1988-09 Contemporary astrologers claim that their craft is scientifically based and rationally consistent, and above all, that astrology works—a belief shared by millions of Americans, including highly visible political and media personalities. As a result, the practice of consulting the stars for advice has never been more popular or more dangerous. Professional astronomers Roger B. Culver and Philip A. Ianna have produced a highly readable and well-referenced response to the claims of astrologers. This book points out the glaring inconsistencies associated with the basic concepts of modern astrology, from the zodiac itself to the fabled Age of Aquarius. Tracing humanity's historical fascination with the heavens that produced the celestial twins of astronomy and astrology, the authors leave little doubt concerning the difference between astronomical science and astrological art form. *Astrology: True or False* offers a complete and extensive summary of available evidence on astrology's basic definitions, concepts, and effectiveness. The authors' research revealed thousands of predictions gone bust, from the start of World War III to claims about the existence of an anti-Earth orbiting on the other side of the sun. They studied the famous twenty-year cycle of presidential death and disaster, the moon cycles of crime and murder in major cities, and the incidences of major personality traits in certain sun signs. Their conclusions, while disappointing to the determined believer in astrology, are nevertheless refreshingly rational. Noel Tyl's Guide to Astrological Consultation Noel Tyl, 2007 Once you understand the astrological chart, it's time to bring order and clarity to your consultations with clients. Renowned astrologer Noel Tyl explores astrological interpretation as an art form.

Emphasizing the horoscope as a reflection of an individual he demonstrates how to transform astrological data into a vivid personality portrait Tyl's thoughtful discussion includes peregrine planets the lunar nodal axis midpoints aspects and how they relate to the evolving life reality of an individual Tyl also provides a cohesive effective format for meeting with clients Actual case studies of the author's consultations including dialogue and natal chart highlight sharp astrological interpretation and the nuances of this delicate person to person interaction Your Sun Sign as a Spiritual Guide Kriyananda,1974 *How to Give an Astrological Health Reading* Diane L.
