Aspects Of Databases:

Database Management Systems Richard A. Frost,1984 **World Databases in Geography and Geology** Chris Armstrong,2020-01-20 No detailed description available for World Databases in Geography and Geology **Multimedia Databases and Image Communication** Maurizio Tucci,2003-06-30 Multimedia technologies are rapidly attracting more and more interest every day The Internet as seen from the end user is one of the reasons for this phenomenon but not the only one Video on Demand is one of the buzzwords today but its real availability to the general public is yet to come Content providers such as publishers broadcasting companies and audio video production rms must be able to archive and index their productions for later retrieval This is a formidable task even more so when the material to be sorted encompasses many different types of several media and covers a time span of several years In order for such a vast amount of data to be easily available existing database design models and indexing methodologies have to be improved and refined In addition new techniques especially tailored to the various types of multimedia must be devised and evaluated For archiving and transmission data compression is another issue that needs to be addressed In many cases it has been found that compression and indexing can be successfully integrated since compressing the data by filtering out irrelevancy implies some degree of understanding of the content structure Database Systems for Advanced Applications Hiroyuki Kitagawa,Yoshiharu Ishikawa,Qing Li,Chiemi Watanabe,2010-03-18 This two volume set LNCS 5981 and LNCS 5982 constitutes the refereed proceedings of the 15th International Conference on Database Systems for Advanced Applications DASFAA 2010 held in Tsukuba Japan in April 2010 The 39 revised full papers and 16 revised short papers presented together with 3 invited keynote papers 22 demonstration papers 6 industrial papers and 2 keynote talks were carefully reviewed and selected from 285 submissions The papers of the first volume are organized in topical sections on P2P based technologies data mining technologies XML search and matching graphs spatial databases XML technologies time series and streams advanced data mining query processing Web sensor networks and communications information management as well as communities and Web graphs The second volume contains contributions related to trajectories and moving objects skyline queries privacy and security data streams similarity search and event processing storage and advanced topics industrial demo papers and tutorials and panels XML Databases and the Semantic Web Bhavani Thuraisingham,2002-03-27 Efficient access to data sharing data extracting information from data and making use of the information have become urgent needs for today's corporations With so much data on the Web managing it with conventional tools is becoming almost impossible New tools and techniques are necessary to provide interoperability as well as warehousing between OOIS ... ,1994 **World Databases in Management** C. J. Armstrong,1995 Subject coverage general administration management consumerism economics marketing PR advertising **International Online Information Meeting** ,1989 *Database and Expert Systems Applications* Vladimir Marik,Jiri Lazansky,1993-08-25 This volume constitutes the proceedings of the 4th

International Conference on Database and Expert Systems Applications DEXA held in Prague Czech Republic in September 1993 Traditionally the objective of the DEXA conferences is to serve as an international forum for the discussion and exchange of research results and practical experinece among theoreticians and professionals working in the field of database and artificial intelligence technologies Despite the fact that in the conference title the applications aspect is mentioned explicitly the theoretical and the practical points of view in the field are well balanced in the program of DEXA 93 The growing importance of the conference series is outlined by the remarkably high number of 269 submissions and by the support given by renown organizations DEXA 93 is held for the first time outside the former GDR in an East European country and is essentially contributing to the advancement of the East West scientific cooperation in the field of database and AI systems This proceedings contains the 78 contributed papers carefully selected by an international program committee with thesupport of a high number of subreferees The volume is organized in sections on data models distributed databases advanced database aspects database optimization and performance evaluation spatial and geographic databases expert systems and knowledge engineering legal systems other database and artificial intelligence applications software engineering and hypertext hypermedia and user interfaces

Object Databases Mary E. S. Loomis,1994 This volume conveys the important facts and concepts business professionals need in order to understand the role of object databases in today s rapidly evolving computing environments Covering all aspects of the essentials of object database technology without requiring advanced technical knowledge this book makes an excellent introductory reference for database experts and non experts alike *Journal of Database Administration* ,2005 [Building Databases for Global Science](#) International Geographical Union. Global Database Planning Project. Meeting,1988 Proceedings of the first meeting of the International Geographic Union Global Database Planning Project held at Tynley Hall Hampshire UK May 1988 Summarizes current work of national and international agencies responsible for environmental monitoring and modelling Examines the philosophical methodological technical legal and organizational problems associated with running these databases defines the shortcomings and advantages of selected data sources presents an overview of future developments No index Annotation copyrighted by Book News Inc Portland OR

Handbook of Research on Innovations in Database Technologies and Applications Viviana E. Ferraggine,Jorge H. Doorn,Laura C. Rivero,2009-01-01 This book provides a wide compendium of references to topics in the field of the databases systems and applications Provided by publisher

Gale Directory of Databases ,2001 **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents,1995 **Database** ,1994 **MCSE Readiness Review, Exam 70-029** Robert Sheldon,1999 This book provides low cost multiple use test taking practice for MCP exam 70 029

GIS and Environmental Modeling Michael F. Goodchild,Louis T. Steyaert,Bradley O. Parks,Carol Johnston,David Maidment,Michael Crane,Sandi Glendinning,1996-09-30 GIS and Environmental Modeling Progress and Research Issues Michael F Goodchild Louis T Steyaert Bradley O Parks Carol

Johnston David Maidment Michael Crane and Sandi Glendinning Editors With growing pressure on natural resources and landscapes there is an increasing need to predict the consequences of any changes to the environment Modelling plays an important role in this by helping our understanding of the environment and by forecasting likely impacts In recent years moves have been made to link models to Geographical Information Systems to provide a means of analysing changes over an area as well as over time GIS and Environmental Modeling explores the progress made to date in integrating these two software systems Approaches to the subject are made from theoretical technical as well as data stand points The existing capabilities of current systems are described along with important issues of data availability accuracy and error Various case studies illustrate this and highlight the common concepts and issues that exist between researchers in different environmental fields The future needs and prospects for integrating GIS and environmental models are also explored with developments in both data handling and modelling discussed The book brings together the knowledge and experience of over 100 researchers from academic commercial and government backgrounds who work in a wide range of disciplines The themes followed in the text provide a fund of knowledge and guidance for those involved in environmental modelling and GIS The book is easily accessible for readers with a basic GIS knowledge and the ideas and results of the research are clearly illustrated with both colour and black and white graphics

Database Systems of the 90s Albrecht Blaser,1990 This volume contains 14 survey articles by reputed database researchers They give an account of the state of the art present research highlights and offer an outlook into the 90s regarding the most likely evolution of database technology research ad tech products and applications The volume is structured into the following parts The evolution of database technology and its impact on enterprise information systems keynote paper Demands on database systems in the 90s office engineering science multimedia standardization User aspects application programmers ad hoc query users Database system and architecture concepts for novel applications data models object orientation deductive DBMS extensibility data replication System and implementation aspects performance and reliability distributed and cooperative DBMS hardware impact The volume may serve as an orientation for all those who are interested in database systems and their impact on computer applications
