Discussion Meeting, 2009 A Super Anxious Aspie Travis Breeding, 2018-12-28 Travis talks about being autistic and having extreme anxiety He shares how trying to mask his autism for so many years created anxiety and paranoia that left everlasting mental health impacts on him Travis gives the reader examples of how he copes and overcomes anxiety while providing tips and strategies for managing your anxiety This is a great tool for autistic people to have in their lives Masking who he was and hiding his autism from others was a coping skill Travis learned by accident Now he is on a mission to unmask his autism and show everyone his authentic autistic self He shares how he spent years doing things he didn t enjoy to please others He also did those things because he had convinced himself that was the only way to happiness and true friendship This is a book of self realization on behalf of someone with Asperger s Syndrome Travis sees the real value of who he is and his autism He no longer avoids bringing autism to the table when meeting anyone it is one of the first things they hear about Read along as Travis builds his self esteem and encourage other autistic people to do the same along with him **I Am Utterly Unique** Elaine M. that take us beyond the standard guidance on how to manage autistic spectrum disorder It challenges the way we might handle obsessional behaviour It invites us to celebrate the pure passion of the intellect which such obsessions can represent and to recognise the delight which can be experienced by children who love to collect It reminds us that many of the autistic mannerisms we might try to suppress actually help the child to think This revised edition includes an additional introduction and extensive summary of research in the field of Asperger s Syndrome both by Tony Attwood     **Assessing Young Children** Gayle Mindes,2007 For courses in Assessment in early childhood education Assessing Young Children addresses theory and provides illustrations of appropriate practice for prospective teachers as well as discusses current trends for experienced teachers It approaches assessment as an integral part of the teaching learning process Key components of the assessment system advocated include cultural sensitivity parent collaboration and a vision of inclusionary practice in all early childhood environments child care and school This book reflects the knowledge base of early childhood and early childhood special education
