

REMOTE WORK POLICY

[Company Name]

Policy Effective Date: _____, 20_____

1. Objectives

This Remote Work Policy provides guidelines and procedures for employees who work remotely, also known as telecommuting, teleworking, or working from home. This policy applies to any employee working from any place outside of our physical office space.

2. Scope

Teleworking can be either a permanent or temporary arrangement between an employee and the Company where the employee is permitted to perform work partially or fully from a space that is outside of our physical office space.

3. Who can work remotely?

To be eligible for a work-from-home arrangement, the employee must:

- Have reliable Internet access
- Be capable and competent to perform job duties, operate with minimal supervision, and possess good time-management and organizational skills
- (Check if applicable) Have worked at the Company for _____ [Time period].

4. Position Eligibility

Employees may be eligible to work remotely if their duties can be satisfactorily performed remotely. Not all jobs offer this flexibility due to the nature of the tasks performed or the needs of the Company. Typically, positions requiring in person interaction with customers and others do not meet the requirements to be considered for a work from home arrangement.

5. Expectations for Remote Employees

While employees and their supervisor have the flexibility and authority to craft work from home arrangements that are uniquely tailored to the individual employee and Company needs, the following requirements must be met:

- Employees must be able to perform the same duties, assignments, and other tasks when working remotely as they do when working at the Company's physical space.
- (Check if applicable) Employees must arrange for childcare during their work hours.
- Employees must be available to collaborate with the Company or other employees during regular working hours.
- The employee and Company will agree on the number of remote work days allowed, the employee's work schedule, and the method and frequency of communications. The employee should be available by an agreed upon means, such as online or via phone, within a reasonable time period during the agreed upon work schedule.

not right when people say that passive activities are risk free businesses In business the concept of risk free is only an illusion As long as money is involved there is always a chance that you may lose that morning Therefore all forms of passive income carry a measure of risk The risk may be minimal when compared to other types of sources of revenue but even blogging has its investment risks Completely Hands Free Passive income streams still require maintenance to make them work and still earn money from them For instance if you have a blog that brings you some money you still have to continue to work hard to ensure that the blog is properly optimized and the traffic keeps coming that s not entirely hands free now is it Thank you for purchasing this book I hope it will answer all your questions on passive income *Passive Income Ideas* Michael Cruz,2020-04-03 The concept of making money when you sleep has drawn a crowd to the pursuit of passive income Theoretically you put in some time and money in the start then relax and let the money pour in when you focus on other things This appears like a dream become a reality but it s mostly only a dream In today s workforce relying on one income source is risky Job protection is rarely guaranteed and a little extra cash is useful always By using your primary income source to cover basic expenses you may use extra income streams to pay off debts reduce your economic burden or avoid going further into debt when you are able to pay for larger purchases up front rather than with a credit card or loan Conversely passive income is cash that continues to pay out following the initial work is done Traditionally income that were considered passive generally included money earned from investments in shares or profit acquired by a person who had invested in accommodations property but wasn t involved in the management or day to day functions of that property This book covers Passive Income Dropshipping Affiliate Marketing Blogging Dividend Stocks Merch By Amazon Programs Amazon Fba Ebook Online Courses Freelancing As A Virtual Assistant AND MORE These are great ways to make passive income still although they require a substantial investment right from the start With the rise of the internet the potential to develop passive income is around every corner if you know where to look and you will get started with much smaller investments Although you absolutely can drastically reduce the amount of time you may spend working throughout the full week a passive income stream won t be quite passive fully In order to ensure you possess a well curved understanding of all aspects of your business it is suggested to be as included as you can be in the start You can then outsource whatever you don t want to do or that you aren t well suited for to experts or automate with software Among the great perks of working online is that you can have got multiple businesses creating income for you without the trouble of owning or renting different buildings hiring managers personnel maintenance etc or trying to find and attract a person base in your area Your online businesses could be available to anyone across the globe twenty four hours a time 3 hundred sixty five days a full year With outsourcing and automation these tools can grow your client base and make you money any moment of day or night with minimal involvement on your own part It s never too late to begin with building passive income and you don t need to be a trained businessperson to begin with building your own business online If you are ready to put in your time and effort to learn and improve as you
