**A Short History of Romania** Ion Bulei, 1998     [A History of Romania](#) Ioan Bolovan, 1996     *History of Romania* Nicolae Iorga, 2019-09-24

A History of Romania Land People Civilization by Nicolae Iorga is an intimate portrait of a land and its people written by Romania's greatest historian. Much like Herodotus in antiquity, Iorga can be considered the father of history for his country. Like a true artist, he paints a vivid picture of Romania, bringing to life the complex history of this fascinating land. Iorga skillfully weaves together history, art, architecture, language, literature, and culture, giving readers a deep understanding of Romanian society. He traces the history of the Romanian lands from ancient times to the end of World War I, reflecting on the great personalities and events that shaped the nation while examining the threads that bind it together. The book includes a list of rulers, a bibliography, an index, and numerous illustrations, as well as a foreword by David Prodan, another luminary of Romanian historiography, discussing Iorga's lasting contributions.

Nicolae Iorga's **A History of Romania** is essential reading for anyone interested in the story of this remarkable country.     **History of Romania** Susana Andea, 2006

**A Concise History of Romania** Keith Hitchins, 2014-02-20

Spanning a period of 2000 years from the Roman conquest of Dacia to the present day, **A Concise History of Romania** traces the development of a unique nation situated on the border between East and West. In this illuminating new history, Keith Hitchins explores Romania's struggle to find its place amidst two diverse societies: one governed by Eastern Orthodox tradition, spirituality, and agriculture, and the other by Western rationalism, experimentation, and capitalism. The book charts Romania's advancement through five significant phases of its history: medieval, early modern, modern, and finally, the nation's return to Europe, evaluating all the while Romania's part in European politics, economic and social change, intellectual and cultural renewals, and international entanglements. This is a fascinating history of an East European nation, one which sheds new light on the complex evolution of the Romanians and the identity they have successfully crafted from a unique synthesis of traditions.

Romania's history is eventful and deeply connected with its geographical position on the continent at the crossroads of great historical empires. In fact, Romania is one of the best places in Europe to discover and understand the history of the entire continent. A history that starts with the expansion of the Roman Empire to migrant tribes, invasions from the attacks of the Ottoman Empire that threatened to conquer Christianity, to the self-determination movements of the 19th century. Romania was in the first line on the eastern fronts of the two world wars and was transformed into a communist state for over four decades.

*Romanians and Romania* Ioan Aurel Pop, 1999

The volume

provides a comprehensive yet brief analysis of the evolution of Romanian history and civilization from the first century BC to the present. Its principal attraction to readers is the conceptual and analytical approach designed to provide an intelligent yet scholarly overview of Romanian history and a clear understanding of the problems facing the country rooted in that history in the post-communist period of transition of the 1990s and most likely also in the new millennium.

**A Short History of Romania** James Samuelson, 2018-03-04

Although the earliest authentic records of Romania or more correctly speaking of Dacia the Roman province which embraced Romania Transylvania and some adjoining territories of today do not reach further back than about the century immediately preceding the Christian era a good deal of information is to be gathered from the writings of Herodotus Dion Cassius and other early historians regarding the Get the race from whom the Dacians sprang. The Get were in all probability a branch of the Thracians who were amongst the earliest immigrants from the East and for some time before they appeared in Dacia which was situated on the northern side of the Danube or Ister as it was called by the Romans they had settled between the south bank of that river and the Balkans. Mount Hemus of the Romans. About the fourth century BC however the Get had crossed the river either driven north by an inimical neighbouring tribe the Triballi or in consequence of the growth of the nation itself. When they were first encountered by the Greeks they occupied the eastern part of Dacia reaching probably to one portion of the Black Sea and some account of them is given by Ovid who was exiled to their vicinity but little is known of them until they came in contact with the Roman armies. The Get have little direct interest for us but as we find associated with them the names of Philip of Macedon Alexander the Great and Lysimachus a few words concerning their connection with those heroes may not be out of place and will at least serve to fix a period in the history of the people.
