Biographical Society**

A History Of Reading In The West:

A History of Reading in the West Guglielmo Cavallo, Roger Chartier, 2003 First published in Paris in 1997 *A History of Reading in the West* Guglielmo Cavallo, Roger Chartier, Lydia G. Cochrane, 1999 Covering the long history of literacy in the Western World a wide variety of experts comments on the role of books and reading in shaping culture politics public opinion and mores from antiquity to the present

Book Banning in 21st-Century America Emily J. M. Knox, 2015-01-16 Requests for the removal relocation and restriction of books also known as challenges occur with some frequency in the United States Book Banning in 21st Century American Libraries based on thirteen contemporary book challenge cases in schools and public libraries across the United States argues that understanding contemporary reading practices especially interpretive strategies is vital to understanding why people attempt to censor books in schools and public libraries Previous research on censorship tends to focus on legal frameworks centered on Supreme Court cases historical case studies and bibliographies of texts that are targeted for removal or relocation and is often concerned with how censorship occurs The current project on the other hand is focused on the why of censorship and posits that many censorship behaviors and practices such as challenging books are intimately tied to the how one understands the practice of reading and its effects on character development and behavior It discusses reading as a social practice that has changed over time and encompasses different physical modalities and interpretive strategies In order to understand why people challenge books it presents a model of how the practice of reading is understood by challengers including what it means to read a text and especially how one constructs the idea of appropriate reading materials The book is based on three different kinds sources The first consists of documents including requests for reconsideration and letters obtained via Freedom of Information Act requests to governing bodies produced in the course of challenge cases Recordings of book challenge public hearings constitute the second source of data Finally the third source of data is interviews with challengers themselves The book offers a model of the reading practices of challengers It demonstrates that challengers are particularly influenced by what might be called a literal common sense orientation to text wherein there is little room for polysemic interpretation multiple meanings for text That is the meaning of texts is always clear and there is only one avenue for interpretation This common sense interpretive strategy is coupled with what Cathy Davidson calls undisciplined imagination wherein the reader is unable to maintain distance between the events in a text and his or her own response These reading practices broaden our understanding of why people attempt to censor books in public institutions

A History of Reading Alberto Manguel, 2012-11-13 In this marvelous book acclaimed around the world Alberto Manguel takes us on a fascinating exploration of what it means to be a reader of books A History of Reading is a brilliant reminder of why we cherish the act of reading despite distractions throughout the ages from the Inquisition to the lures of cyberspace He shows us what happens when we read who we become and how reading teaches us how to live He reminds us that we live in books as well as among them how we find our

own stories in books and traces of our lives He shows us how our reading habits have developed over the centuries and how ever since humans first transcribed their thoughts and deeds on clay and papyrus the act of reading is itself a part of being human Alberto Manguel is a lover of reading and he brings a lover s delight and enthusiasm to his history of reading His stories take us across a breathtaking range of time and experiences From the invention of the reader to Pliny the Younger s first lip synch in history from the moment when Alexander the Great s conquering army watched amazed as their captain read a letter from his mother but silently to himself to reading clubs in medieval France from the Great Camel Library of the Grand Vizir of Persia who trained his camels to walk in alphabetical order to the ancient delights of bedroom reading and the modern horrors of book burning in Nazi Germany from cuneiform and codexes to the invention of printing and to Penguins from the creation of eyeglasses to the hypnotics of hypertext the story of reading is laid open here for our pleasure
