his people Many of the people with whom Jesus came in contact had doubts and were oppressed by this religious system Jesus challenged the people of his day by asking 233 questions more than any other leader in recorded history The uniqueness of this book is threefold First in two thousand years no other book has been written that summarizes these extraordinary questions Second the questions that Jesus asked pressed the very heart and root of the issues that were universally significant during that period Third these questions the answers to these questions and Jesus s authentic resolutions transcend time and space to the current condition of our culture today They cover every aspect of our lives whether we deal with the purpose of life our relationships to one another or how God wants to impact our conventional society The Question builds a bridge between what Jesus said two thousand years ago and his empirical message to what we desperately need to hear today Jesus has a unique way of communicating inspiring us to reach down deep into our very being His questions are piercing and challenging and cause introspection that could only be inspired by the Almighty It is a unique and unusual process of communication created by the world s greatest leader The Congregationalist and Advance ,1918
